The Cat's Box Fort

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The owner builds a cardboard box fort for the cat, and the dog wants in: the fort, a paw through the window, a nose inspection, guarding it and resting her head on top.

TIMELINE

0-5s	The fort
5-10s	Paw out the window
10-15s	Nose inspection
15-20s	Guarding it
20-25s	Head on top

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (The fort): Living room, afternoon daylight, a fort made of two plain brown cardboard boxes taped together on the carpet, with round holes cut in the sides. An orange tabby cat with white paws and a white chest walks in through the front hole. The dog watches from the couch. Sound: cardboard rustling, owner says "do you like it?". 5-10s (Paw out the window): Same living room, natural daylight, cardboard fort on the carpet. The dog walks over and sniffs one of the round side holes. A white paw from the orange tabby cat with white paws and a white chest pokes out of the hole and gently taps her nose. The dog flinches back and wags. Sound: soft tap, a surprised snort, owner laughs. 10-15s (Nose inspection): Living room, afternoon light, close to the box fort. The dog pushes just her nose into the front hole of the box, sniffing loudly. Inside, the orange tabby cat with white paws and a white chest sits calmly, its face lit by a little light from the hole, sniffing her nose back. Sound: loud sniffing, cardboard creaking, purring. 15-20s (Guarding it): Living room carpet, daylight from the window. The dog lies down right in front of the box fort, front paws stretched out, like a guard. The orange tabby cat with white paws and a white chest peeks its head out of the front hole and sits there, its chin just above her paw. Sound: quiet room, purring, owner whispers "security guard". 20-25s (Head on top): Late afternoon, a table lamp switched on in the living room. The dog lies beside the box fort and rests her chin on top of the box, which bends a little under her head. The orange tabby cat with white paws and a white chest looks out of the side hole at her. Sound: cardboard crinkling, a soft sigh, owner laughs quietly.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | The fort

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Living room, afternoon daylight, a fort made of two plain brown cardboard boxes taped together on the carpet, with round holes cut in the sides. An orange tabby cat with white paws and a white chest walks in through the front hole. The dog watches from the couch. Sound: cardboard rustling, owner says "do you like it?".

Clip 2 | 5-10s | Paw out the window

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
