One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

After dinner both friends get the evening zoomies at the same time, each running their own way: the dog laps the yard, the cat dashes down the hallway, the dog circles inside, the cat leaps up its cat tree and both flop out.

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Yard laps): Fenced backyard at dusk, the porch light switched on, patchy grass and a wooden fence. The dog runs fast loops around the yard on her own, ears back, fluffy tail streaming behind her, kicking up a bit of grass on the turns. Sound: paws pounding the grass, panting, owner laughing "there she goes". 5-10s (Cat dash): Inside, a long hallway with a wooden floor, ceiling lights on, evening. An orange tabby cat with white paws and a white chest suddenly sprints down the hallway by itself, tail puffed up, slides slightly on the wood at the end and turns into a bedroom doorway. Sound: rapid little paw thumps, claws skidding, owner gasps and laughs. 10-15s (Couch circles): Living room, evening, ceiling light on, a couch in the middle of the room on a large rug. The dog trots in from the back door and does two quick laps around the couch, play-bowing at the corner. The orange tabby cat with white paws and a white chest watches from the armrest. Sound: thumping paws, rug sliding a little, playful huffs. 15-20s (Cat tree leap): Living room corner, evening lamp light, a tall carpeted cat tree by the window. The orange tabby cat with white paws and a white chest races across the floor and leaps up the cat tree to the top platform. The dog stands below wagging, watching it from the floor. Sound: claws on carpet posts, cat tree wobbling, tags jingling. 20-25s (Both flop): Living room, evening, warm lamp light. The dog flops onto her side on the rug, panting with her tongue out. The orange tabby cat with white paws and a white chest lies sprawled on the top of the cat tree, legs dangling over the edge. Both look completely worn out. Sound: heavy panting, a tiny cat yawn, owner says "and done".

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
