Snow Day - The Cat Stays Inside

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Fresh snow outside: the dog plays in the backyard while the cat watches from the warm side of the glass door, they touch noses through the glass and reunite at the door with a towel and a sniff check.

TIMELINE

0-5s	Out into snow
5-10s	Rolling in snow
10-15s	Cat watches
15-20s	Nose to glass
20-25s	Towel and sniff

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Out into snow): Back door opening onto a snowy backyard, bright white overcast morning, fresh snow on the deck and the fence. The dog bounds out into the snow, fluffy fur getting dusted white. Behind her, an orange tabby cat with white paws and a white chest sits inside on the doormat, not moving. Sound: door opening, crunching snow, owner says "you're staying in, huh?". 5-10s (Rolling in snow): Snowy backyard, flat grey-white daylight, snow on bare bushes and a wooden fence. The dog rolls onto her back in the deep snow, legs kicking, then pops up and shakes, snow flying off her long coat. Footprints are scattered all around her. Sound: snow crunching, happy snorting, quiet winter air. 10-15s (Cat watches): Inside, a sliding glass door looking out at the snowy yard, cool white daylight, a radiator under the window. The orange tabby cat with white paws and a white chest sits on a folded blanket by the glass, watching. Outside, the dog digs her snout into the snow, tail wagging. Sound: muffled crunching through glass, radiator ticking. 15-20s (Nose to glass): Sliding glass door, white winter daylight, snow piled against the outside edge. The dog walks up to the door and touches her snowy nose to the glass. On the inside, the orange tabby cat with white paws and a white chest leans forward and touches its nose to the same spot. Sound: a soft bump on the glass, owner whispers "oh my heart". 20-25s (Towel and sniff): Back door entry, indoor ceiling light, a tile floor with a wet mat. The owner's hands rub the dog with an old towel, snow clumps falling off her paws. The orange tabby cat with white paws and a white chest sniffs her cold wet leg, shakes one white paw and steps back. Sound: towel rubbing, snow dripping, owner laughs "too cold for you?".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Out into snow

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Back door opening onto a snowy backyard, bright white overcast morning, fresh snow on the deck and the fence. The dog bounds out into the snow, fluffy fur getting dusted white. Behind her, an orange tabby cat with white paws and a white chest sits inside on the doormat, not moving. Sound: door opening, crunching snow, owner says "you're staying in, huh?".

Clip 2 | 5-10s | Rolling in snow

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
