Meet Her Little Sidekick

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

An introduction to the dog's shortest best friend, the Corgi: a porch greeting, a nose-to-nose sniff, the Corgi following her around the house, side-by-side water bowls and a shared rug.

TIMELINE

0-5s	Porch greeting
5-10s	Nose-to-nose sniff
10-15s	Follows her inside
15-20s	Water side by side
20-25s	Shared rug

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Porch greeting): Front porch of a small house, cloudy late morning, grey painted boards, a worn doormat and a potted fern. The dog stands at the top step as a small red-and-white Pembroke Welsh Corgi with a blue collar trots up the steps, short legs working hard. The dog lowers her head and her tail swishes slowly. Sound: claws on wooden boards, tags jingling, owner says "here comes your buddy". 5-10s (Nose-to-nose sniff): Same porch, soft overcast daylight. The dog lies down on the doormat so her head is level with the small red-and-white Corgi with a blue collar. They touch noses, the Corgi sniffs her fluffy cheek and ear, and the dog blinks calmly and gives one gentle lick on top of the Corgi's head. Sound: snuffling, a soft snort from the Corgi, birds in the yard. 10-15s (Follows her inside): Living room, natural daylight from a side window, beige carpet, grey couch and a basket of folded laundry. The dog walks across the room and the small red-and-white Corgi with a blue collar follows right behind her, stopping when she stops and starting again when she moves, like a little shadow. Sound: soft paw steps, tags jingling, owner chuckles "everywhere you go". 15-20s (Water side by side): Kitchen corner, morning window light, white tile floor with a towel under two bowls. The dog drinks from a large steel bowl while the small red-and-white Corgi with a blue collar drinks from a smaller steel bowl right beside it. Water drips from both chins onto the towel. Sound: two different lapping rhythms, dripping water, the fridge humming. 20-25s (Shared rug): Living room, soft afternoon daylight through thin curtains, a round striped rug. The dog lies stretched out on the rug and the small red-and-white Corgi with a blue collar flops down against her chest, short legs sticking out. The dog rests her chin lightly on the Corgi's back and sighs. Sound: a long contented sigh, quiet room, a clock ticking.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
