MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Lining up): Backyard, overcast midday, patchy green grass and a wooden fence with a gap in one board. The dog and a small red-and-white Pembroke Welsh Corgi with a blue collar stand next to each other by the patio step, both staring at the owner's raised hand holding a squeaky toy, bodies tense and ready. Sound: breathing, a car passing, owner says "ready... set...". 5-10s (The sprint): Same backyard, overcast daylight. The owner's hand tosses the squeaky toy toward the fence. The dog takes off in long easy strides while the small red-and-white Corgi with a blue collar runs behind as fast as its short legs allow, ears flat. The dog reaches the toy first. Sound: paws thudding on grass, the toy squeaking, owner laughing "go go go". 10-15s (Second lap): Backyard by the fence, flat grey daylight, a garden hose coiled on the ground. The dog trots back with the toy and drops it. The small red-and-white Corgi with a blue collar arrives panting and bounces in place with its front paws, ready for another try, while the dog wags her fluffy tail. Sound: panting, tags jingling, a quick excited yip from the Corgi. 15-20s (Water break): Patio corner, cloudy daylight, grey concrete slabs and a plastic chair. The dog and the small red-and-white Corgi with a blue collar drink from two separate water bowls placed a little apart. The Corgi's face is right in the bowl and water splashes onto the concrete around it. Sound: noisy lapping, splashing, a neighbor's lawn mower far away. 20-25s (Corgi head start): Backyard grass, overcast afternoon light. The owner's hand rests gently on the dog's chest to hold her back while the small red-and-white Corgi with a blue collar dashes off toward a tossed ball. The dog waits, then trots after it slowly and lets the Corgi grab the ball first. Sound: owner whispering "let him win", the Corgi's happy huff, birds.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
