Sharing One Stick

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A walk in the woods where the dog and the Corgi find one long stick and somehow share it: finding it, carrying it together, a tree-root break, a creek-side rest and a careful hand-off.

TIMELINE

0-5s	Finding the stick
5-10s	Carrying it together
10-15s	Stuck on a root
15-20s	Creek-side rest
20-25s	The hand-off

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Finding the stick): Woodland dirt path, cool cloudy morning, brown leaves and pine needles on the ground. The dog sniffs along the edge of the trail and pulls a long thin fallen branch out from under some ferns. A small red-and-white Pembroke Welsh Corgi with a blue collar trots over to inspect it. Sound: leaves crunching, birds, the owner's footsteps on the path. 5-10s (Carrying it together): Same woodland path, soft grey daylight between the trees. The dog carries the front of the long branch in her mouth while the small red-and-white Corgi with a blue collar holds the other end. They walk slowly side by side down the trail, the branch bobbing between them. Sound: paws on dirt, the branch scraping leaves, owner laughs "teamwork". 10-15s (Stuck on a root): Woodland path with thick tree roots crossing it, cloudy daylight. The branch catches on a root and both dogs stop. The dog lets go and sniffs the root while the small red-and-white Corgi with a blue collar tugs gently and the branch slides free. The dog picks her end back up. Sound: a dry scrape, a little grunt from the Corgi, wind in the branches. 15-20s (Creek-side rest): Edge of a shallow rocky creek, overcast light filtering through bare trees. The dog lies on a patch of moss with the branch between her front paws, chewing one end. The small red-and-white Corgi with a blue collar lies nearby chewing the other end. Water trickles over the stones behind them. Sound: water trickling, wood crunching, distant crows. 20-25s (The hand-off): Trailhead near a small gravel parking area, cloudy afternoon light. The dog stops, drops the branch on the gravel and steps back. The small red-and-white Corgi with a blue collar grabs the middle of it and trots proudly toward the car while the dog walks beside it wagging. Sound: gravel crunching, tags jingling, owner says "he's not taking that home".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Finding the stick

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Woodland dirt path, cool cloudy morning, brown leaves and pine needles on the ground. The dog sniffs along the edge of the trail and pulls a long thin fallen branch out from under some ferns. A small red-and-white Pembroke Welsh Corgi with a blue collar trots over to inspect it. Sound: leaves crunching, birds, the owner's footsteps on the path.

Clip 2 | 5-10s | Carrying it together

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
