The Corgi Stole Her Ball

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The Corgi sneakily takes the dog's favorite ball in the backyard: the steal, the stare, the Corgi hiding under a bench, the dog lying down to wait and a surprise ball return.

TIMELINE

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (The steal): Backyard, sunny late afternoon, short grass with a few dandelions and a wooden picnic bench. The dog drops a worn orange rubber ball and looks away toward the fence. A small red-and-white Pembroke Welsh Corgi with a blue collar trots in, grabs the ball and hurries off with it. Sound: birds, quick little paw steps, owner gasps "oh no he didn't". 5-10s (The stare): Same backyard, warm afternoon sunlight and long shadows on the grass. The dog turns her head and looks at the empty spot where the ball was, then looks over at the small red-and-white Corgi with a blue collar standing a few steps away with the orange ball in its mouth. Her ears tilt. Sound: quiet yard, a wind chime, owner laughing quietly. 10-15s (Hiding under the bench): Backyard by the wooden picnic bench, sunny afternoon light. The small red-and-white Corgi with a blue collar squeezes under the bench with the ball. The dog walks over, lowers her head to look under the bench and sniffs, tail wagging slowly, too big to follow it underneath. Sound: sniffing, the Corgi's muffled huff, owner says "he found a hideout". 15-20s (Waiting patiently): Grass beside the picnic bench, warm late sunlight. The dog lies down in the grass right in front of the bench with her front paws stretched out and her chin on the ground, watching the small red-and-white Corgi with a blue collar peek out from underneath with the orange ball. Sound: crickets starting, slow breathing, a distant dog barking. 20-25s (Ball returned): Same spot in the backyard, late afternoon sun low behind the fence. The small red-and-white Corgi with a blue collar crawls out from under the bench and drops the orange ball right between the dog's front paws. The dog sniffs it, then gives the Corgi a quick lick on the ear. Sound: the ball bouncing once, a soft lick, owner says "aww, he gave it back".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
