Synchronized Head Tilts

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The owner makes funny noises and the dog and the Corgi tilt their heads at the same time: a squeaky toy, the word walk, a phone sound, a whisper and a final double tilt for a treat.

TIMELINE

0-5s	Squeaky toy tilt
5-10s	The word walk
10-15s	Odd noise tilt
15-20s	Whisper test
20-25s	Treat reward

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Squeaky toy tilt): Living room, bright morning daylight from a big window, beige carpet. The dog sits next to a small red-and-white Pembroke Welsh Corgi with a blue collar, both facing the camera. The owner's hand squeezes a rubber duck toy and both dogs tilt their heads to the same side at once. Sound: a squeak, owner bursts out laughing, tags jingling. 5-10s (The word walk): Same living room, morning daylight, couch in the background with a folded blanket. The owner, filming at sitting height, says one word and the dog's ears go fully upright as she tilts her head left. The small red-and-white Corgi with a blue collar beside her tilts left too, ears huge. Sound: owner says "walk?", a little whine, tail swishing on carpet. 10-15s (Odd noise tilt): Living room near the window, soft natural light. The owner makes a high whistling sound. The dog tilts her head to the right, then the small red-and-white Corgi with a blue collar copies a moment later, then they both switch sides together, staring straight at the camera. Sound: owner whistling, a soft confused grumble, quiet room. 15-20s (Whisper test): Same carpet, morning light now a little brighter. The owner leans the camera closer and whispers. The dog leans forward, head tilted, nose twitching, and the small red-and-white Corgi with a blue collar steps forward too, both faces filling the frame side by side, big ears perked. Sound: owner whispering "who wants a cookie", sniffing, tags clinking. 20-25s (Treat reward): Living room carpet, bright daylight. The owner's open palm offers two small dog biscuits, one at a time. The dog takes hers gently first, then the small red-and-white Corgi with a blue collar takes its biscuit. They both crunch while still looking up, heads still slightly tilted. Sound: crunching, owner says "good job, both of you", happy panting.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Squeaky toy tilt

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Living room, bright morning daylight from a big window, beige carpet. The dog sits next to a small red-and-white Pembroke Welsh Corgi with a blue collar, both facing the camera. The owner's hand squeezes a rubber duck toy and both dogs tilt their heads to the same side at once. Sound: a squeak, owner bursts out laughing, tags jingling.

Clip 2 | 5-10s | The word walk

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Same living room, morning daylight, couch in the background with a folded blanket. The owner, filming at sitting height, says one word and the dog's ears go fully upright as she tilts her head left. The small red-and-white Corgi with a blue collar beside her tilts left too, ears huge. Sound: owner says "walk?", a little whine, tail swishing on carpet.

Clip 3 | 10-15s | Odd noise tilt

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Living room near the window, soft natural light. The owner makes a high whistling sound. The dog tilts her head to the right, then the small red-and-white Corgi with a blue collar copies a moment later, then they both switch sides together, staring straight at the camera. Sound: owner whistling, a soft confused grumble, quiet room.

Clip 4 | 15-20s | Whisper test

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
