# Double Leash Walk

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

### VIDEO IDEA

An evening neighborhood walk with both dogs on leashes: heading out the door, matching steps on the sidewalk, sniffing the same lamppost, a pause at the curb and walking home in the dusk.

### MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Heading out): Front door of a house, early evening, warm hallway light behind and blue dusk outside. The owner's hand holds two leashes, a yellow one clipped to the dog and a thin blue one clipped to a small red-and-white Pembroke Welsh Corgi with a blue collar. Both step out onto the porch together. Sound: door opening, leash clips jingling, owner says "let's go, team". 5-10s (Matching steps): Neighborhood sidewalk at dusk, streetlights just turning on, parked cars and trimmed hedges. The dog walks calmly on a loose yellow leash while the small red-and-white Corgi with a blue collar trots next to her on a blue leash, taking three quick steps for each of her strides. Sound: paws on concrete, leash tags clinking, crickets. 10-15s (Sniffing the lamppost): Sidewalk beside a metal lamppost and a patch of grass, dim evening light from the streetlamp. The dog stops to sniff the base of the post and the small red-and-white Corgi with a blue collar sniffs the same spot right under her chin. Both noses work busily. Sound: loud sniffing, a car passing slowly, owner sighs "every single post". 15-20s (Pause at the curb): Street corner at dusk, a quiet crosswalk and a stop sign seen from behind. The dog sits at the curb on command and the small red-and-white Corgi with a blue collar sits beside her a moment later. Both wait quietly while the owner's legs stand still, leashes slack. Sound: owner says "sit... good", distant traffic, a dog barking far off. 20-25s (Walking home): Sidewalk leading back toward a house with a lit porch light, nearly dark blue sky. The dog and the small red-and-white Corgi with a blue collar walk side by side toward the porch, leashes loose, the porch light making their outlines warm and soft. Sound: crickets, paws on concrete, keys jingling in the owner's hand.

### AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

## CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

#### HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Muse AI: one video** | Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
