Digging in the Sandpit

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The owner builds a dog digging pit in the yard: discovering the sand, the dog digging, the Corgi joining in, finding a buried toy and two very sandy faces.

TIMELINE

0-5s	Discovering the sand
5-10s	Big dog digs
10-15s	Corgi joins in
15-20s	Finding the toy
20-25s	Sandy faces

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Discovering the sand): Corner of a backyard, cloudy spring morning, a low wooden frame filled with pale play sand next to a shed. The dog walks up and sniffs the sand carefully, then steps inside. A small red-and-white Pembroke Welsh Corgi with a blue collar puts its front paws on the wooden edge to look. Sound: birds, sniffing, owner says "this is your digging spot". 5-10s (Big dog digs): Same sandpit, soft overcast daylight. The dog digs quickly with both front paws, sand flying out behind her between her back legs. The small red-and-white Corgi with a blue collar stands safely to the side at the edge of the frame, watching the sand spray with its head low. Sound: sand scratching, fast paw strokes, owner laughing. 10-15s (Corgi joins in): Backyard sandpit, cloudy morning light, the shed wall behind. The small red-and-white Corgi with a blue collar climbs into the sand and digs its own little hole with short front legs, sand sticking to its white chest. The dog pauses and sniffs the Corgi's hole with interest. Sound: small scratching sounds, snuffling, owner says "look at him go". 15-20s (Finding the toy): Same sandpit, soft daylight. The dog's digging uncovers a half-buried red rubber chew toy. She pulls it out with her teeth and shakes the sand off. The small red-and-white Corgi with a blue collar sniffs the empty hole left behind, nose covered in sand. Sound: sand pouring, a quick shake, owner cheers "you found it". 20-25s (Sandy faces): Grass beside the sandpit, overcast late morning light. Both dogs sit side by side facing the camera. The dog has sand stuck on her nose and in her fluffy chest fur. The small red-and-white Corgi with a blue collar has sand all over its face and sneezes once. Sound: a sneeze, panting, owner says "bath time, both of you".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Discovering the sand

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Corner of a backyard, cloudy spring morning, a low wooden frame filled with pale play sand next to a shed. The dog walks up and sniffs the sand carefully, then steps inside. A small red-and-white Pembroke Welsh Corgi with a blue collar puts its front paws on the wooden edge to look. Sound: birds, sniffing, owner says "this is your digging spot".

Clip 2 | 5-10s | Big dog digs

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. FACEBOOK CAPTION

I made them a sandpit so they would stop digging up the garden.
It worked. Mostly.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
