Training Class Duo

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The dog and the Corgi attend a weekend group training class together: arriving, sit practice, a down-stay, walking through low cones and the trainer handing out treats.

TIMELINE

0-5s	Arriving at class
5-10s	Sit practice
10-15s	Down-stay
15-20s	Weaving the cones
20-25s	Trainer's treats

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Arriving at class): Fenced grassy training field behind a community building, cool cloudy Saturday morning, orange cones on the grass. The owner walks in holding two leashes. The dog walks calmly on a yellow leash and a small red-and-white Pembroke Welsh Corgi with a blue collar trots on a blue leash. Sound: gate latch clicking, distant voices, birds. 5-10s (Sit practice): Same training field, overcast daylight. The owner's hand raises a treat above the dog's head and she sits neatly. Next to her, the small red-and-white Corgi with a blue collar sits too, a second later, its short back legs folding under. Both look up at the owner's hand. Sound: owner says "sit", a whistle far off, tags jingling. 10-15s (Down-stay): Training field grass, flat grey daylight. Both dogs lie down side by side on the grass. The owner's open palm stays raised toward them and the owner's legs take two steps back. The dog stays perfectly still. The small red-and-white Corgi with a blue collar wiggles but stays down. Sound: owner says "stay... stay", a light breeze, other dogs panting nearby. 15-20s (Weaving the cones): Line of small orange cones on the training field, cloudy morning. The dog walks on a loose leash weaving between the cones beside the owner's legs. The small red-and-white Corgi with a blue collar follows close behind her and bumps one cone over, which wobbles but stays upright. Sound: a cone thunking, owner laughing, a trainer saying "nice" in the distance. 20-25s (Trainer's treats): Edge of the training field near the fence, overcast light. A trainer, shown only from the waist down in khaki pants with a treat pouch, crouches and offers one small treat to the dog, then one to the small red-and-white Corgi with a blue collar. Both take them gently. Sound: treat pouch rustling, crunching, trainer says "good work, you two".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
