Car Ride Buddies

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A short drive to the park with both dogs safely harnessed in the back seat: climbing in, buckling harnesses, watching out the window, a sleepy lean and arriving at the park.

TIMELINE

0-5s	Climbing in
5-10s	Buckling harnesses
10-15s	Watching out the window
15-20s	Sleepy lean
20-25s	Arriving at the park

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Climbing in): Driveway beside a silver hatchback, bright cool morning, a back door open. The dog hops onto the back seat covered with a grey seat cover. The owner's hands lift a small red-and-white Pembroke Welsh Corgi with a blue collar up onto the seat beside her. Sound: car door creaking, paws on fabric, owner says "up you go". 5-10s (Buckling harnesses): Back seat of the hatchback, morning daylight through the windows. The dog wears a black car harness clipped to a short seatbelt tether. The owner's hands click the small red-and-white Corgi with a blue collar, in a little blue harness, into its own tether on the other side of the seat. Sound: buckle clicking, harness straps rustling, owner says "safety first". 10-15s (Watching out the window): Back seat filmed from the front passenger seat while parked at a red light, daylight outside, trees passing slowly. Both dogs sit harnessed in the back. The dog looks out the side window with ears up and the small red-and-white Corgi with a blue collar looks out its window too. Sound: engine idling, turn signal ticking, soft panting. 15-20s (Sleepy lean): Back seat of the car, soft daylight, the car stopped in light traffic. The small red-and-white Corgi with a blue collar, still harnessed, lies down on the seat and rests its head against the dog's leg. The dog, harnessed and sitting, lowers her nose to sniff the Corgi's ear. Sound: road hum, a quiet yawn, the radio playing very low. 20-25s (Arriving at the park): Park parking lot, mid-morning sun, green trees ahead. The back door opens and the owner's hand unclips both harness tethers. The dog sits up tall and excited, and the small red-and-white Corgi with a blue collar stands on the seat, tail stub wiggling, both staring at the grass outside. Sound: door opening, tethers unclipping, owner says "we're here".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Climbing in

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Driveway beside a silver hatchback, bright cool morning, a back door open. The dog hops onto the back seat covered with a grey seat cover. The owner's hands lift a small red-and-white Pembroke Welsh Corgi with a blue collar up onto the seat beside her. Sound: car door creaking, paws on fabric, owner says "up you go".

Clip 2 | 5-10s | Buckling harnesses

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Back seat of the hatchback, morning daylight through the windows. The dog wears a black car harness clipped to a short seatbelt tether. The owner's hands click the small red-and-white Corgi with a blue collar, in a little blue harness, into its own tether on the other side of the seat. Sound: buckle clicking, harness straps rustling, owner says "safety first".

Clip 3 | 10-15s | Watching out the window

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Back seat filmed from the front passenger seat while parked at a red light, daylight outside, trees passing slowly. Both dogs sit harnessed in the back. The dog looks out the side window with ears up and the small red-and-white Corgi with a blue collar looks out its window too. Sound: engine idling, turn signal ticking, soft panting.

Clip 4 | 15-20s | Sleepy lean

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Back seat of the car, soft daylight, the car stopped in light traffic. The small red-and-white Corgi with a blue collar, still harnessed, lies down on the seat and rests its head against the dog's leg. The dog, harnessed and sitting, lowers her nose to sniff the Corgi's ear. Sound: road hum, a quiet yawn, the radio playing very low.

Clip 5 | 20-25s | Arriving at the park

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
