She Shares Her Toy

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The dog decides to share her favorite stuffed toy with the Corgi on a quiet afternoon: carrying it over, dropping it, a nudge, both chewing on it and a nap with the toy between them.

TIMELINE

0-5s	Carrying it over
5-10s	Dropping it
10-15s	A gentle nudge
15-20s	Both chewing
20-25s	Nap with the toy

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Carrying it over): Living room, quiet afternoon, soft daylight from a window with sheer curtains, light wood floor. The dog walks across the room carrying a worn brown stuffed bear in her mouth, one ear of the toy already chewed. A small red-and-white Pembroke Welsh Corgi with a blue collar lies on a dog bed. Sound: soft paw steps, tags jingling, birds outside. 5-10s (Dropping it): Same living room by the dog bed, soft afternoon light. The dog stops in front of the small red-and-white Corgi with a blue collar and gently drops the stuffed bear right in front of its nose, then steps back and stands watching, tail swaying. Sound: a soft plop, owner whispers "is she sharing?". 10-15s (A gentle nudge): Dog bed on the wood floor, natural window light. The small red-and-white Corgi with a blue collar sniffs the bear but does not take it. The dog lowers her head and pushes the toy a little closer with her nose, then looks at the Corgi. Sound: sniffing, a soft huff, owner says "aww, take it". 15-20s (Both chewing): Living room floor, soft afternoon daylight. The small red-and-white Corgi with a blue collar picks up one leg of the bear and chews it. The dog lies down next to the bed and softly mouths the bear's other arm, both lying calmly with the toy between them. Sound: soft chewing, a toy squeaker giving a faint squeak, a clock ticking. 20-25s (Nap with the toy): Dog bed and floor beside it, late afternoon light fading a little. The small red-and-white Corgi with a blue collar has fallen asleep curled in the bed with its chin on the bear. The dog lies against the edge of the bed with her nose touching the toy, eyes half closed. Sound: quiet snoring, slow breathing, owner whispers "best big sister".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
