Snowy Trail Duo

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A winter walk on a snowy forest trail: first steps in fresh snow, the Corgi plowing through deeper snow, the dog breaking a path, sniffing tracks and warming up on a mat back home.

TIMELINE

0-5s	Fresh snow
5-10s	Corgi plows through
10-15s	Breaking a path
15-20s	Sniffing tracks
20-25s	Warming up

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Fresh snow): Start of a snowy forest trail, bright overcast winter morning, white snow on pine branches. The dog steps into the fresh snow, sniffs it and shoves her nose in. A small red-and-white Pembroke Welsh Corgi with a blue collar, wearing a small red fleece coat, stands beside her. Sound: snow crunching, quiet forest, owner's breath, owner says "brr". 5-10s (Corgi plows through): Same snowy trail, flat white daylight. The small red-and-white Corgi with a blue collar in its red fleece coat bounds through snow up to its chest, leaving a little trench behind. The dog walks next to it easily, snow only reaching her ankles. Sound: soft snow thumps, panting, owner laughing "snow plow". 10-15s (Breaking a path): Snowy forest trail between tall pine trees, cold grey light. The dog walks in front, pressing down a path in the snow with her paws, and the small red-and-white Corgi with a blue collar in its red coat walks behind her in the packed trail she leaves. Sound: snow crunching in rhythm, a crow calling, wind in the pines. 15-20s (Sniffing tracks): Snowy clearing by the trail, bright overcast light. Both dogs stop at a line of small animal tracks in the snow. The dog sniffs along them with her fluffy tail high, and the small red-and-white Corgi with a blue collar sniffs the same tracks right next to her, snow on its nose. Sound: sniffing, snow falling off a branch, owner whispers "bunny". 20-25s (Warming up): Mudroom at home, warm ceiling light, rubber boots and a radiator against the wall. Both dogs sit on a thick doormat while the owner's hands rub a towel over the dog's snowy legs. The small red-and-white Corgi with a blue collar, coat off, leans against her. Sound: towel rubbing, radiator ticking, owner says "warm paws now".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Fresh snow

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Start of a snowy forest trail, bright overcast winter morning, white snow on pine branches. The dog steps into the fresh snow, sniffs it and shoves her nose in. A small red-and-white Pembroke Welsh Corgi with a blue collar, wearing a small red fleece coat, stands beside her. Sound: snow crunching, quiet forest, owner's breath, owner says "brr".

Clip 2 | 5-10s | Corgi plows through

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
