MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Meeting at the gate): Backyard wooden fence gate, sunny late morning, green grass and a vegetable bed. The neighbor's hand opens the gate and a tricolor beagle with long floppy ears and a green collar trots in on a leash. The dog stands a few steps back, tail wagging slowly and ears relaxed. Sound: gate creaking, beagle sniffing loudly, neighbor says "hi there". 5-10s (Polite sniff): Same backyard, bright late morning sun. The dog and the tricolor beagle with floppy ears and a green collar circle slowly, sniffing each other's sides calmly. A small red-and-white Pembroke Welsh Corgi with a blue collar sits by the owner's legs nearby, watching. Sound: snuffling, tags jingling, birds, owner says "nice and easy". 10-15s (Gentle trot): Backyard lawn, sunny day, a wooden fence and a small apple tree. The dog trots in a slow loose circle around the yard with the tricolor beagle with floppy ears and a green collar trotting beside her, both relaxed with mouths open, sniffing the grass as they go. Sound: paws on grass, a happy beagle bay, people chatting softly. 15-20s (Shade spot): Under the small apple tree in the backyard, dappled shade on the grass, warm noon light. The dog lies down in the shade and the tricolor beagle with floppy ears and a green collar lies a short distance away, both panting. Two separate water bowls sit on the grass. Sound: panting, lapping water, leaves rustling. 20-25s (Goodbye at the gate): Backyard fence gate, early afternoon sun. The neighbor's legs stand at the open gate with the tricolor beagle with floppy ears and a green collar on its leash. The beagle and the dog touch noses one last time, then the beagle trots out with its tail wagging. Sound: gate latch clicking, tags jingling, neighbor says "same time next week?".

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
