Reunited With Her Puppy Class Friend

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The dog sees the cream Labrador from her old puppy class again at a park: spotting each other, a happy wiggly greeting, a slow play bow, walking together and resting side by side.

TIMELINE

0-5s	Spotting each other
5-10s	Wiggly greeting
10-15s	Play bow
15-20s	Walking together
20-25s	Resting side by side

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Spotting each other): Neighborhood park, bright spring afternoon, green grass and a row of trees. The dog stops on the path with her ears fully upright, staring ahead. Across the grass, a cream Labrador with a purple collar on a leash also stops and stares back. Sound: birds, owner says "is that... it is her". 5-10s (Wiggly greeting): Same park lawn, sunny afternoon. The dog and the cream Labrador with a purple collar walk up to each other on loose leashes, bodies wiggling, tails wagging so hard their whole back ends swing. They sniff each other's faces happily and lean shoulder to shoulder. Sound: excited whines, tags jingling, two owners laughing. 10-15s (Play bow): Open grass in the park, bright daylight. The dog lowers her front end into a play bow, fluffy tail high. The cream Labrador with a purple collar answers with its own play bow, then both bounce sideways once and stand together, mouths open and relaxed. Sound: a playful bark, paws on grass, owner says "just like old times". 15-20s (Walking together): Park walking path in sunny afternoon light, trees on both sides. The dog and the cream Labrador with a purple collar walk side by side on loose leashes, sniffing the grass edges and sometimes bumping shoulders, their owners' legs walking just behind them. Sound: footsteps, leashes jingling, owners chatting, birds. 20-25s (Resting side by side): Shady grass under a big oak tree, late afternoon light through leaves. The dog lies on the grass and the cream Labrador with a purple collar lies right next to her, both panting and leaning gently against each other, watching people walk by. Sound: panting, leaves rustling, owner says "they remember each other".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
