Her Duckling Friends

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

She meets three fluffy ducklings in their brooder: first sniffs, lying beside the pen, watching water time, a supervised lawn visit and an evening watch while they sleep.

TIMELINE

0-5s	First look
5-10s	Lying beside the pen
10-15s	Water time
15-20s	Lawn visit
20-25s	Bedtime watch

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (First look): Laundry room, morning, plain daylight from a small window, white tiled floor. A low plastic brooder pen with wood shavings and a red heat lamp holds three fluffy yellow ducklings. The dog stands outside the pen with her head over the low side, sniffing slowly. The owner's hand rests on the rim, and the ducklings peep and huddle together in one corner. Sound: busy peeping, the dog sniffing, washing machine humming, owner says "gentle". 5-10s (Lying beside the pen): Same laundry room, daylight from the small window. The dog lies flat on the tiles beside the brooder pen, chin on the floor next to its clear plastic wall. Inside, the three fluffy yellow ducklings waddle up to the plastic and peck at it right in front of her nose. She blinks and keeps very still, only her ears twitching at every peep. Sound: tiny tapping on plastic, peeping, a soft sigh from the dog. 10-15s (Water time): Laundry room, morning window light, white tiles. Inside the brooder pen the owner's hand sets down a shallow water dish, and the three yellow ducklings rush to it, dipping their bills and flicking drops everywhere. The dog watches from outside the pen with her head tilted and flinches back a little when a drop of water lands on her nose. Sound: splashing, peeping, owner laughs "they got you". 15-20s (Lawn visit): Backyard lawn, mild late morning, bright overcast sky, short green grass inside a small wire playpen. The three yellow ducklings explore the grass inside the playpen while the owner kneels beside it with both hands on the wire. The dog lies outside the wire, nose almost touching it, watching each duckling tumble over a tuft of grass. Sound: peeping, birds in the trees, a neighbor's lawn mower far away. 20-25s (Bedtime watch): Laundry room in the evening, ordinary ceiling light, everything quiet. Under the red heat lamp the three yellow ducklings sleep in one fluffy pile in the wood shavings. Outside the brooder pen the dog lies curled on a folded blanket on the tiles, eyes half closed, lifting her head to glance at the pen before resting it down again. Sound: soft sleepy peeps, the heat lamp clicking, the dog's slow breathing.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | First look

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Laundry room, morning, plain daylight from a small window, white tiled floor. A low plastic brooder pen with wood shavings and a red heat lamp holds three fluffy yellow ducklings. The dog stands outside the pen with her head over the low side, sniffing slowly. The owner's hand rests on the rim, and the ducklings peep and huddle together in one corner. Sound: busy peeping, the dog sniffing, washing machine humming, owner says "gentle".

Clip 2 | 5-10s | Lying beside the pen

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
