Her Piglet Friend

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

An afternoon with a spotted piglet: snout-to-nose hellos, watching it root, a belly rub, side-by-side snacks and a shady nap with only the fence between them.

TIMELINE

0-5s	Snout hello
5-10s	Watching it root
10-15s	Belly rub
15-20s	Snack side by side
20-25s	Shady nap

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Snout hello): Small farm yard, mild afternoon, overcast daylight, packed dirt and a low wooden pen. A small pink piglet with black spots trots up to the pen boards and grunts. The dog stands outside, lowers her nose to a gap in the boards, and the two sniff each other, the piglet's snout wiggling fast and the dog's ears perked forward. Sound: quick little grunts, sniffing, chickens clucking somewhere nearby. 5-10s (Watching it root): Fenced grassy run on a small farm, overcast afternoon light. The pink spotted piglet roots in the soft dirt with its snout, pushing up clumps of grass, while the owner kneels close by. The dog lies just outside the low wire fence, head on her paws, watching, and sneezes when a bit of dirt flies her way. Sound: snuffling, dirt scattering, the dog's sneeze, owner laughs. 10-15s (Belly rub): Same grassy run, soft overcast daylight. The owner's hand scratches the pink spotted piglet's belly until it flops onto its side with a happy grunt and stretches its legs. The dog leans her head over the low wire fence, gently sniffs the piglet's ear, and her tail wags slowly behind her. Sound: happy grunts, owner says "look at that, she wants one too". 15-20s (Snack side by side): Grassy run beside the farm yard, overcast afternoon light. The owner's hand drops small apple slices into a shallow dish inside the run for the piglet, then gives the dog a plain dog biscuit outside the fence. The two crunch their snacks at the same time, side by side with only the wire fence between them. Sound: loud crunching from both, the piglet grunting between bites. 20-25s (Shady nap): Shady corner of the farm yard under an old apple tree, warm late afternoon, patches of sunlight on the dirt. The pink spotted piglet sleeps on a pile of straw just inside the low fence. The dog lies on the other side of the wire with her back close to it, eyes closing, her tail twitching once as the piglet snores softly. Sound: soft piglet snores, leaves rustling, distant birds.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Snout hello

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. FACEBOOK CAPTION

Nobody told her pigs are supposed to be scary.
They just snack together and nap together.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
