Calf Friend Through the Fence

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A young calf becomes her fence-line buddy: a curious first sniff, a big lick, trotting side by side, watching bucket feeding and resting in the same spot.

TIMELINE

0-5s	Curious sniff
5-10s	A big lick
10-15s	Trotting side by side
15-20s	Bucket feeding
20-25s	Resting together

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Curious sniff): Edge of a green pasture, cool morning, light mist, metal gate and a wire fence. A young black-and-white calf with big ears walks curiously to the fence. The dog sits on the grass outside, then leans forward, and the calf stretches its wet nose through the wires to sniff her face. Both freeze for a second, then sniff again. Sound: calf's deep breathing, birds, wet grass, owner whispers "hi baby". 5-10s (A big lick): Same pasture fence, misty morning daylight, dew on the wires. The black-and-white calf pokes its long tongue through the fence and gives the dog one big slow lick across the top of her head, flattening her long fur. The dog blinks, shakes her head and stays right there, her tail wagging in the wet grass. Sound: a slurp, the dog's ear flap shaking, owner laughs "oh no, the hair". 10-15s (Trotting side by side): Wire fence along the pasture, mist lifting, pale morning sun. The dog trots along the outside of the fence and the black-and-white calf trots along the inside, both bouncing a little, stopping and starting together. The calf kicks up its back legs once and the dog does a playful bow on her side, then they keep going. Sound: hooves thudding on soft ground, panting, a short happy bark. 15-20s (Bucket feeding): Metal pasture gate, bright morning light, muddy patch by the gate. The owner's hands hold a red rubber feeding bucket with a teat over the top rail, and the black-and-white calf drinks hungrily, foam on its lips. The dog sits next to the owner's boots outside the gate, looking up at the calf, her ears moving at every slurp. Sound: loud slurping, the bucket bumping the gate, cows mooing far away. 20-25s (Resting together): Pasture fence at midday, bright overcast sky, tall grass. The black-and-white calf lies folded in the grass just inside the fence, chewing slowly. The dog lies outside in the same spot, a meter away through the wires, panting softly. The calf's ear flicks at a fly, and a second later the dog's ear flicks too. Sound: slow chewing, flies buzzing, wind in the grass.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Curious sniff

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Edge of a green pasture, cool morning, light mist, metal gate and a wire fence. A young black-and-white calf with big ears walks curiously to the fence. The dog sits on the grass outside, then leans forward, and the calf stretches its wet nose through the wires to sniff her face. Both freeze for a second, then sniff again. Sound: calf's deep breathing, birds, wet grass, owner whispers "hi baby".

Clip 2 | 5-10s | A big lick

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Sound: slow chewing, flies buzzing, wind in the grass.

FACEBOOK CAPTION

Every morning she runs straight to the same fence post.
Her friend is always waiting there.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
