Her Rooster Friend

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

She and a loud rooster share the backyard mornings: a crowing greeting, a slow garden patrol, dirt flying, grain and treats, and sitting together on the back steps.

TIMELINE

0-5s	Loud greeting
5-10s	Garden patrol
10-15s	Dirt flying
15-20s	Grain and treats
20-25s	Sitting together

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Loud greeting): Backyard chicken run, early morning, cool pale daylight, wire mesh fence and a wooden coop. A big rooster with red and copper feathers and a tall red comb struts along the inside of the mesh. The dog stands outside, head tilted, and the rooster stops right in front of her and crows loudly, making her ears flatten for a second. Sound: a loud rooster crow, hens clucking, owner laughs "good morning to you too". 5-10s (Garden patrol): Backyard, early morning sun just over the wooden fence, dewy lawn. The red-and-copper rooster is out on the grass with the owner standing close by, pecking at the lawn. The dog walks slowly a few steps behind it, nose low, sniffing every spot where it pecked, and stops every time the rooster stops. Sound: soft clucking, pecking, birds, damp grass under paws. 10-15s (Dirt flying): Patch of bare dirt beside a vegetable bed, morning daylight, owner's legs at the edge of the frame. The rooster scratches the soil with its big yellow feet, flinging dirt backward, and some lands on the dog's front paws as she lies nearby. She looks down at her paws, then back at the rooster, and stays lying calmly. Sound: scratching, dirt pattering, owner says "he's redecorating you". 15-20s (Grain and treats): Back steps of the house, mid-morning, sunlight on the grey concrete, a few flower pots. The owner's hand scatters a small handful of chicken grain on the ground for the rooster, which pecks quickly. The dog sits on the step above, watching closely, and the owner's other hand gives her a small dog treat of her own. Sound: grain hitting concrete, rapid pecking, the dog crunching her treat. 20-25s (Sitting together): Back steps, warm late morning light, flower pots along the wall, the owner's knee in the corner of the frame. The dog lies stretched across the bottom step. The red-and-copper rooster hops up onto the step beside her and settles down, fluffing its feathers. The dog turns her head, sniffs its tail feathers once and puts her chin back down. Sound: feathers ruffling, a soft cluck, a bee buzzing in the flowers.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Loud greeting

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Backyard chicken run, early morning, cool pale daylight, wire mesh fence and a wooden coop. A big rooster with red and copper feathers and a tall red comb struts along the inside of the mesh. The dog stands outside, head tilted, and the rooster stops right in front of her and crows loudly, making her ears flatten for a second. Sound: a loud rooster crow, hens clucking, owner laughs "good morning to you too".

Clip 2 | 5-10s | Garden patrol

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
