Donkey Friend in the Pasture

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

An evening with her donkey friend: a nose touch over the rail, a startling bray, a slow walk along the fence, carrot snacks and a quiet moment at dusk.

TIMELINE

0-5s	Nose touch
5-10s	Surprise bray
10-15s	Slow walk
15-20s	Carrot snacks
20-25s	Dusk together

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Nose touch): Dry pasture with a wooden fence, late afternoon, hazy warm daylight, dusty ground. A grey donkey with a pale nose and long fuzzy ears ambles up to the fence. The dog walks up on the outside, and the two touch noses over the lowest rail. The donkey's long ears swivel toward her as she sniffs its pale muzzle. Sound: hooves on dry dirt, sniffing, cicadas, wind. 5-10s (Surprise bray): Same pasture fence, hazy afternoon light, dust in the air. The grey donkey lifts its head and lets out a long, loud bray right beside the dog. She jumps back a step with her ears pinned, then slowly creeps forward again with her tail low and wagging, and sniffs the donkey's nose once more. Sound: a long loud donkey bray, owner bursts out laughing. 10-15s (Slow walk): Fence line of the dusty pasture, sun lower in the sky, long shadows on the ground. The dog walks slowly along the outside of the fence and the grey donkey plods along inside next to her at exactly the same slow pace, head bobbing. They pass a metal water trough and both stop to look at it. Sound: slow hoofbeats, paws on dry grass, a far-off dog barking. 15-20s (Carrot snacks): Wooden pasture fence, warm late afternoon light. The owner's hand holds a carrot over the top rail and the grey donkey crunches it noisily, crumbs falling. The dog sits beside the owner's boots outside the fence and takes a small piece of carrot from the owner's other hand, crunching it with her ears perked. Sound: loud double crunching, owner says "one for you, one for you". 20-25s (Dusk together): Pasture fence at dusk, fading orange sky, the yard light coming on by the barn. The grey donkey stands resting with its head over the rail, eyes half closed. The dog sits on the outside right under its chin, leaning on the post, and the donkey lowers its pale nose to rest on top of her head for a moment. Sound: crickets, the donkey's slow breath, a door closing at the house.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

FACEBOOK CAPTION

The bray scares her every single time.
She goes right back anyway. That is friendship.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
