Her Alpaca Friend

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

She gets to know a fluffy alpaca on a hillside farm: a staring contest, curious humming, a walk together with the owner, a dust bath and sitting side by side.

TIMELINE

0-5s	Staring contest
5-10s	Curious humming
10-15s	Walking together
15-20s	Dust bath
20-25s	Sitting side by side

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Staring contest): Small hillside farm, cool clear morning, bright daylight, green grass and a wire field fence. A fluffy cream-colored alpaca with a long neck and a shaggy topknot walks to the fence and stares down at the dog. The dog stares back, head tilted, then slowly stretches her nose up, and the alpaca lowers its face to sniff her. Sound: wind, sheep far off, owner whispers "who blinks first". 5-10s (Curious humming): Same wire fence on the hillside farm, bright cool morning light. The cream alpaca makes a soft humming sound right above the dog. Her ears shoot up and she tilts her head one way, then the other, staring at it. The alpaca hums again, and she sniffs the air near its fluffy chest through the wires. Sound: soft alpaca humming, the dog's curious whine, wind in the grass. 10-15s (Walking together): Gravel farm track between two fields, bright cool daylight. The owner leads the cream alpaca on a blue halter and rope, walking slowly. The dog walks on the owner's other side on a loose leash, glancing past the owner's legs at the alpaca, which walks with its head held high and its fluffy topknot bouncing. Sound: gravel crunching, soft padded alpaca steps, owner says "nice and easy". 15-20s (Dust bath): Dusty bare patch inside the paddock, late morning sun, wire fence. The cream alpaca folds its legs, drops down and rolls in the dust, kicking up a small brown cloud. The dog lies just outside the fence, watching with her head tilted, then sneezes and shakes her head as the dust drifts her way. Sound: thuds, dust swishing, the dog's sneeze, owner laughing. 20-25s (Sitting side by side): Paddock fence in the afternoon, mild sunshine, light breeze moving the grass. The cream alpaca sits folded on the grass close to the inside of the fence, chewing slowly. The dog lies outside facing the same way, both looking out at the hills. The breeze lifts the alpaca's topknot and the dog's long ear fur at the same time. Sound: wind, slow chewing, a bird singing on the fence post.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Staring contest

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Small hillside farm, cool clear morning, bright daylight, green grass and a wire field fence. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
