Guinea Pig Friend

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

She and a squeaky guinea pig share the living room: a sniff through the pen, veggie time, a gentle visit on the owner's lap, happy hops and an evening nap beside the pen.

TIMELINE

0-5s	Sniff through the pen
5-10s	Veggie time
10-15s	Lap visit
15-20s	Happy hops
20-25s	Evening nap

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Sniff through the pen): Living room, afternoon, soft window daylight, grey carpet. A low guinea pig pen with a small wooden hideout holds a tan-and-white guinea pig. The owner sits on the floor beside it with one hand on the pen. The dog lies down next to the pen and slowly pushes her nose to the wire, and the guinea pig squeaks and comes over to sniff. Sound: small squeaks, the dog sniffing, owner says "easy, easy". 5-10s (Veggie time): Same living room, afternoon daylight, grey carpet. The owner's hand drops a small piece of cucumber into the pen. The tan-and-white guinea pig squeals loudly and runs to grab it, chewing fast. The dog lying beside the pen raises her ears at every squeal, tilting her head from one side to the other. Sound: loud excited squealing, fast chewing, a quiet huff from the dog. 10-15s (Lap visit): Living room floor, soft afternoon window light. The owner holds the tan-and-white guinea pig on a folded towel on their lap, both hands around it. The dog sits close and sniffs it very gently, then licks her own nose and sits back again. The guinea pig keeps chewing a piece of hay without a care. Sound: hay crunching, the dog sniffing, owner says "good girl, so gentle". 15-20s (Happy hops): Living room, late afternoon daylight, grey carpet. Inside the low pen the tan-and-white guinea pig does sudden little jumps in the air, spinning as it lands, while the owner's hand rests on the pen. The dog lies outside, head following every hop, her tail thumping on the carpet. Sound: tiny thumps on fleece, squeaks, the dog's tail thumping, owner laughing. 20-25s (Evening nap): Living room in the evening, warm table lamp light, curtains closed. The tan-and-white guinea pig rests inside its wooden hideout with only its nose poking out. The dog lies stretched along the outside of the pen with her chin on her paws, eyes slowly closing, the owner's sock feet just visible beside her. Sound: quiet TV voices far away, soft squeak, the dog's long sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
