Hedgehog Visitor in the Garden

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A wild hedgehog visits the garden at dusk and she watches calmly from a short distance: the first sighting, quiet watching, a water dish, a leave-it moment and a sniff after it leaves.

TIMELINE

0-5s	First sighting
5-10s	Quiet watching
10-15s	Water dish
15-20s	Leave it
20-25s	Sniffing the spot

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (First sighting): Small back garden at dusk, fading blue light, damp lawn, the porch light on by the back door. A small brown hedgehog shuffles out from under a hedge onto the grass. The dog stands on the patio with the owner's hand resting on her collar, freezes and stares, ears forward and nose working, staying exactly where she is. Sound: evening birds, leaves rustling, owner whispers "look, he's back". 5-10s (Quiet watching): Same garden, dusk turning to night, the porch light lighting the lawn. The dog lies down on the patio stones at the edge of the grass, a few meters from the hedgehog. The hedgehog sniffs along the lawn, its pointy snout twitching, and the dog follows it with her eyes only, chin resting on her paws. Sound: tiny snuffling, crickets, a car passing on the street. 10-15s (Water dish): Back garden at night, porch light, damp grass. The owner's hand slowly sets a shallow dish of water at the far edge of the lawn and steps back to the patio. The hedgehog trundles over to it and drinks. The dog sits beside the owner's legs on the stones, watching quietly, tail moving slowly. Sound: soft lapping, crickets, owner whispers "stay". 15-20s (Leave it): Back garden at night, porch light on the lawn. The hedgehog stops and stays still near the flower bed. The dog stretches her neck forward from the patio, sniffing the air hard, then lies back down on the stones when the owner quietly says leave it, her eyes still fixed on the hedgehog a few meters away. Sound: deep sniffs, owner whispers "leave it", a soft whine. 20-25s (Sniffing the spot): Back garden later at night, porch light, dark hedge. The hedgehog shuffles back under the hedge and disappears. Only then the dog stands, walks slowly to the place on the lawn where it was, and sniffs the grass carefully in a small circle, then looks back toward the camera with her ears up. Sound: rustling under the hedge, sniffing, owner whispers "good girl".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | First sighting

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
