Foster Kitten Siblings

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Two tiny foster kittens arrive and she becomes a calm big sister: nose sniffs through the pen, bottle time, gentle play, a check-in from the cat and a nap side by side.

TIMELINE

0-5s	First sniffs
5-10s	Bottle time
10-15s	Gentle play
15-20s	The cat checks in
20-25s	Nap side by side

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (First sniffs): Spare bedroom, morning, soft daylight through thin white curtains, a wire playpen lined with fleece blankets. Two tiny grey tabby foster kittens wobble toward the side of the pen. The dog lies outside with her nose against the bars, and both kittens stretch up to sniff her nose, their little tails sticking straight up. Sound: tiny mews, the dog sniffing, owner whispers "so gentle". 5-10s (Bottle time): Spare bedroom floor, morning daylight, fleece blankets. The owner sits cross-legged holding one tiny grey tabby kitten wrapped in a towel and feeding it from a small kitten bottle. The dog lies right beside the owner's knee, watching closely, and gently sniffs the edge of the towel, her tail moving slowly on the floor. Sound: tiny sucking sounds, a happy squeak, the dog's soft breathing. 10-15s (Gentle play): Spare bedroom, late morning light through the curtains. Inside the low playpen the two grey tabby kittens bat at a feather wand moved by the owner's hand. The dog rests her chin on the low edge of the pen, ears twitching, and flinches when one kitten pats her nose with a tiny paw. Sound: tiny feet on fleece, mews, owner laughs "she got you". 15-20s (The cat checks in): Spare bedroom by the playpen, bright daylight, beige carpet. The orange tabby cat with white paws and a white chest walks in and sits next to the dog beside the pen. Both look over the edge at the two grey kittens tumbling in the fleece. The cat sniffs the dog's ear, and the dog stays calm. Sound: tiny mews, the cat's soft trill, owner whispers "the aunties are here". 20-25s (Nap side by side): Spare bedroom in the evening, warm lamp light, curtains closed. The two grey tabby kittens sleep curled together in the fleece just inside the pen, right against the side where the dog lies outside. Her nose rests a few centimeters from them through the bars, her eyes closed, one ear still turned toward them. Sound: very soft purring, the dog's slow breathing, a quiet house.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | First sniffs

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Spare bedroom, morning, soft daylight through thin white curtains, a wire playpen lined with fleece blankets. Two tiny grey tabby foster kittens wobble toward the side of the pen. The dog lies outside with her nose against the bars, and both kittens stretch up to sniff her nose, their little tails sticking straight up. Sound: tiny mews, the dog sniffing, owner whispers "so gentle".

Clip 2 | 5-10s | Bottle time

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. FACEBOOK CAPTION

Foster kittens, week one. She took the big sister job very seriously.
Would you have kept them?

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
