Her Ferret Friend

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A bouncy ferret tests her patience: a tunnel surprise, a silly sideways hop around her, peekaboo through the tunnel, a stolen sock and a sleepy ending on the owner's lap.

TIMELINE

0-5s	Tunnel surprise
5-10s	Silly sideways hop
10-15s	Peekaboo

20-25s	Sleepy ending

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Tunnel surprise): Living room, evening, ordinary ceiling lamps, wooden floor and a dark sofa. A small sable ferret with a dark mask and a cream face pops out of a blue fabric tunnel onto the floor, with the owner sitting right beside it. The dog lying on the floor lifts her head, and the ferret hops toward her and sniffs her nose. Sound: fabric rustling, tiny claws on wood, owner says "here he comes". 5-10s (Silly sideways hop): Same living room, ceiling lamp light, wooden floor. The sable ferret does its bouncy sideways hop around the dog with its back arched, making soft clucking sounds. The dog stays lying down, only turning her head to follow it, her tail thumping on the floor, while the owner's hand rests close by. Sound: soft ferret clucking, tail thumps, owner laughing. 10-15s (Peekaboo): Living room floor, evening lamp light. The ferret dives into the blue fabric tunnel. The dog leans over and sniffs the open end, tail wagging. A second later the ferret's masked face pops out of the other end right behind her, and she turns her head around with her ears up. Sound: tunnel crinkling, sniffing, owner says "behind you". 15-20s (Stolen sock): Living room in front of the sofa, warm evening lamps. The sable ferret drags a grey sock across the wooden floor and slips under the sofa with it. The dog lies at the edge of the sofa with her nose pressed to the gap, sniffing, then looks back at the camera as if asking for help. Sound: sock sliding, scrabbling under the sofa, owner says "that's mine". 20-25s (Sleepy ending): Living room sofa, late evening, one table lamp on. The sable ferret is fast asleep, completely limp, on a fleece blanket on the owner's lap. The dog sits on the floor and rests her chin on the owner's knee right beside it, eyes half closed, while the owner's hand strokes her head. Sound: quiet room, soft breathing, owner whispers "finally".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
