Duck Pond Buddies

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

An evening at the farm pond with two white ducks: watching them paddle, the ducks coming ashore, a walk along the path, feeding time and a calm moment at dusk.

TIMELINE

0-5s	Watching them paddle
5-10s	Coming ashore
10-15s	Walk along the path
15-20s	Feeding time
20-25s	Calm at dusk

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Watching them paddle): Small farm pond, early evening, cloudy sky, tall reeds and a muddy bank. Two white farm ducks paddle near the edge of the water. The dog sits on the grassy bank with the owner standing beside her, watching with her ears forward, her head turning as the ducks quack and dip their heads underwater. Sound: quacking, water lapping, frogs croaking, owner says "there they are". 5-10s (Coming ashore): Same farm pond, cloudy evening light, muddy bank. The two white ducks waddle out of the water and up the bank, shaking off drops. They pass about a meter from the dog, who sniffs the air and stays sitting, her tail sweeping slowly across the grass while the owner's legs stay beside her. Sound: wet flapping, quacks, the dog sniffing. 10-15s (Walk along the path): Dirt footpath around the farm pond, cloudy evening, reeds on one side. The dog walks on a loose leash beside the owner's legs, and the two white ducks waddle along the path a few steps ahead, quacking. The dog keeps her slow pace behind them, nose low, never closing the gap. Sound: quacking, footsteps on dirt, leash clip jingling. 15-20s (Feeding time): Grassy pond bank, soft cloudy evening light. The owner's hand tosses a small scoop of duck pellets onto the grass, and the two white ducks gobble them up quickly. The dog lies a few steps away on the bank with her chin on her paws, watching every peck with her eyebrows moving. Sound: fast pecking, happy quacks, owner says "no bread for these two". 20-25s (Calm at dusk): Farm pond at dusk, fading grey-blue sky, still water. The two white ducks sit on the grass preening their feathers a short distance from the dog. The dog lies on the bank facing the water, eyes half closed. One duck tucks its head under its wing, and the dog lets out a long relaxed breath. Sound: frogs, crickets, a soft quack, water lapping.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Watching them paddle

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Small farm pond, early evening, cloudy sky, tall reeds and a muddy bank. Two white farm ducks paddle near the edge of the water. The dog sits on the grassy bank with the owner standing beside her, watching with her ears forward, her head turning as the ducks quack and dip their heads underwater. Sound: quacking, water lapping, frogs croaking, owner says "there they are".

Clip 2 | 5-10s | Coming ashore

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. FACEBOOK CAPTION

Our evening walk always ends at the duck pond.
She just likes to hang out with them.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
