Robin at the Birdbath

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A little robin visits the garden birdbath and she watches calmly from a short distance: the landing, bath time, her own drink, the robin finding a worm and a song from the fence.

TIMELINE

0-5s	The landing
5-10s	Bath time
10-15s	Her own drink
15-20s	Robin finds a worm
20-25s	Fence song

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (The landing): Small cottage garden, cool spring morning, soft daylight, a stone birdbath on a pedestal among flower beds. A robin with an orange-red breast lands on the rim of the birdbath. The dog lies on the lawn a few meters away, head up, ears forward, watching without moving a muscle. Sound: robin chirping, distant church bells, owner whispers "don't move". 5-10s (Bath time): Same cottage garden, soft morning light, stone birdbath. The robin hops into the shallow water and splashes, flicking its wings and sending drops over the rim. The dog lies on the grass a few meters away and tilts her head one way, then the other, her nose twitching as she watches. Sound: tiny splashing, chirps, the dog's quiet whine. 10-15s (Her own drink): Garden patio, morning daylight, grey paving stones and potted herbs. The dog drinks from her own metal water bowl, lapping noisily, then lifts her head and looks across the lawn at the birdbath, where the robin is still splashing, water dripping from her chin onto the stones. Sound: loud lapping, dripping, faint splashing from the birdbath. 15-20s (Robin finds a worm): Cottage garden lawn, mild late morning, soft daylight. The robin hops across the grass a couple of meters from the dog, stops, pecks and tugs a worm out of the soil. The dog stays lying with her chin on her paws, only her eyes and eyebrows moving as she follows every hop. Sound: soft hops, a tug in the soil, birds in the hedge. 20-25s (Fence song): Garden patio, late morning, wooden fence at the end of the lawn. The robin perches on top of the fence and sings loudly. The dog sits beside the owner's legs on the patio, a few meters away, ears up, tilting her head at every new note, her tail sweeping the paving stones. Sound: clear robin song, owner whispers "she's singing for you".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | The landing

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Small cottage garden, cool spring morning, soft daylight, a stone birdbath on a pedestal among flower beds. A robin with an orange-red breast lands on the rim of the birdbath. The dog lies on the lawn a few meters away, head up, ears forward, watching without moving a muscle. Sound: robin chirping, distant church bells, owner whispers "don't move".

Clip 2 | 5-10s | Bath time

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
