MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Over-the-door hello): Small stable yard, early morning, cold enough to see breath, pale sunrise light, concrete yard and wooden stable doors. A tall bay horse with a black mane looks over its half door. The dog trots across the yard beside the owner's boots and stops under the door, and the horse lowers its big head to sniff her ears. Sound: a deep horse nicker, boots on concrete, owner says "morning, you two". 5-10s (Mucking out): Same stable yard, pale morning light, puddles on the concrete. The owner's hands push a wheelbarrow full of dirty straw across the yard. The dog walks right beside the wheelbarrow wheel, nose low, while the tall bay horse watches them from over its half door with its ears forward. Sound: squeaky wheelbarrow wheel, footsteps, the horse snorting. 10-15s (Breakfast for both): Stable yard, morning light, a wooden bench by the stable wall. The owner's hand pours feed into a black rubber bucket inside the bay horse's stable door, and the horse dips its head in. Outside on the concrete, the dog eats kibble from her own metal bowl beside the bench, both crunching at once. Sound: feed rattling, loud horse chewing, kibble crunching. 15-20s (Walking to the field): Muddy lane between tall hedges, cool morning, sun low over the fields. The owner leads the tall bay horse on a lead rope, walking slowly. The dog walks on the owner's other side on a loose leash, looking up at the horse now and then, the horse's hooves sinking into the soft mud. Sound: hooves squelching in mud, birds in the hedges, leash tag jingling. 20-25s (Watching it roll): Grass field behind a metal gate, bright morning sun, dew on the grass. Inside, the bay horse drops down and rolls on its back, legs in the air, then stands and shakes. The dog sits outside the closed gate beside the owner's boots, watching with her head tilted, tail wagging across the wet grass. Sound: thud of the horse rolling, a big snort, owner laughs.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
