Barn Cat Friendship

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

She and the farm's grey-and-white barn cat run the barn together: a hay bale hello, a mouse watch, breakfast in separate bowls, a fence walk and a nap in the barn doorway.

TIMELINE

0-5s	Hay bale hello
5-10s	Mouse watch
10-15s	Breakfast, separate bowls
15-20s	Fence walk
20-25s	Doorway nap

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Hay bale hello): Old wooden barn, mid-morning, dusty daylight coming through gaps in the boards, hay bales stacked along the wall. A lean grey-and-white barn cat sits on top of a low hay bale. The dog walks in slowly and stops below it, and the cat leans down, touches noses with her, then rubs its cheek along her head. Sound: a soft meow, purring, pigeons cooing in the rafters. 5-10s (Mouse watch): Same barn, dusty light beams, straw on the floor. The grey-and-white barn cat and the dog sit side by side, both staring at a small gap under the stacked hay bales, ears forward, completely still. The cat's tail twitches at the tip, and the dog slowly tilts her head. Sound: a faint rustle in the hay, silence, owner whispers "what is it". 10-15s (Breakfast, separate bowls): Barn entrance, morning daylight, an old wooden shelf by the door. The owner's hand spoons wet cat food into a small dish up on the shelf for the grey-and-white barn cat, then pours kibble into the dog's own metal bowl on the floor. The cat eats above while the dog eats below. Sound: spoon tapping a dish, kibble rattling, chewing from both. 15-20s (Fence walk): Farmyard outside the barn, sunny late morning, wooden post-and-rail fence. The grey-and-white barn cat walks along the top rail of the fence, tail up. Below it, the dog walks slowly on the grass at the same pace, looking up at the cat now and then, and they stop together at the end post. Sound: birds, a tractor far away, the dog's tags jingling. 20-25s (Doorway nap): Wide barn doorway, early afternoon, a big patch of warm sunlight on the dusty boards. The dog lies stretched out in the sunbeam. The grey-and-white barn cat walks over and curls up against her back, tucking its nose under its tail. The dog lifts her head, glances back at it and lies down again. Sound: purring, distant cows, the dog's sleepy sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Hay bale hello

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Old wooden barn, mid-morning, dusty daylight coming through gaps in the boards, hay bales stacked along the wall. A lean grey-and-white barn cat sits on top of a low hay bale. The dog walks in slowly and stops below it, and the cat leans down, touches noses with her, then rubs its cheek along her head. Sound: a soft meow, purring, pigeons cooing in the rafters.

Clip 2 | 5-10s | Mouse watch

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. Sound: purring, distant cows, the dog's sleepy sigh.

FACEBOOK CAPTION

The barn cat does not like anyone. Except her.
We still do not know how she did it.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
