The Rescue Hens Arrive

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Two rescued hens arrive at their new home and she calmly keeps them company: arrival day, first steps on grass, a first dust bath, a hello through the wire and bedtime at the coop.

TIMELINE

0-5s	Arrival day
5-10s	First steps on grass
10-15s	First dust bath
15-20s	Hello through the wire
20-25s	Bedtime at the coop

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Arrival day): Back garden, cool overcast morning, a new wooden coop with a wire run on the lawn. The owner's hands set a cardboard pet carrier inside the run and open the flap. Two thin brown rescue hens with patchy feathers step out cautiously onto the grass. The dog stands outside the wire, very still, watching with her head lowered. Sound: nervous clucks, cardboard rustling, owner whispers "welcome home, girls". 5-10s (First steps on grass): Same wire run on the lawn, overcast daylight. The two brown rescue hens peck curiously at the grass, lifting their feet high as if the ground is strange. The dog lies down outside the wire with her front paws stretched out, watching them closely, ears soft, tail resting flat on the lawn. Sound: soft clucking, pecking, birds in the trees. 10-15s (First dust bath): Inside the wire run, mid-morning, a bare dry patch of soil near the coop. One brown rescue hen scratches a hollow and rolls in the dust, fluffing out its patchy feathers. The dog watches from outside the wire with her head tilted, then looks up at the camera as if asking whether that is normal. Sound: dust flicking, contented clucks, owner laughs "she's never done that before". 15-20s (Hello through the wire): Edge of the wire run, overcast late morning light. One brown rescue hen walks right up to the wire and looks at the dog. The dog slowly pulls her head back, then stretches forward and sniffs the hen through the mesh. The hen makes a soft trilling cluck and stays there, the owner's hand on top of the run. Sound: a soft trilling cluck, sniffing, owner whispers "good, gentle". 20-25s (Bedtime at the coop): Back garden at dusk, fading grey light, porch light on. The two brown rescue hens walk up the little ramp into the wooden coop. The owner's hand closes the small coop door and slides the latch. The dog sits beside the coop on the lawn, looking at the door, and lies down there. Sound: sleepy clucks, the latch clicking, evening crickets.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Arrival day

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Back garden, cool overcast morning, a new wooden coop with a wire run on the lawn. The owner's hands set a cardboard pet carrier inside the run and open the flap. Two thin brown rescue hens with patchy feathers step out cautiously onto the grass. The dog stands outside the wire, very still, watching with her head lowered. Sound: nervous clucks, cardboard rustling, owner whispers "welcome home, girls".

Clip 2 | 5-10s | First steps on grass

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
