# The Cockatiel Who Rides on Her Back

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

## VIDEO IDEA

A cockatiel loves riding on her back and she lets it: stepping on, walking along her fur, a very slow ride across the room, ear nibbles and a whistle from the perch.

## TIMELINE

| | |
|---|---|
| **0-5s** | Stepping on |
| **5-10s** | Walking along her fur |
| **10-15s** | Slow ride |
| **15-20s** | Ear nibbles |
| **20-25s** | Whistle from the perch |

## MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Stepping on): Living room, late morning, bright window daylight, grey sofa and a wooden floor with a rug. A grey cockatiel with a yellow crest and orange cheek patches sits on the owner's finger. The owner lowers the hand beside the dog, who is lying on the rug, and the cockatiel steps off onto her back, gripping her long fur. Sound: a cheerful whistle, owner says "okay, all aboard". 5-10s (Walking along her fur): Same living room, bright daylight, rug. The grey cockatiel walks along the dog's back toward her shoulders, crest raised, whistling. The dog lies still and looks back at it from the corner of her eye, ears flicking, while the owner's hand hovers close beside the bird. Sound: whistling, tiny steps, the dog's calm breathing. 10-15s (Slow ride): Living room, late morning light, wooden floor. The dog stands and walks very slowly across the rug toward the kitchen doorway with the grey cockatiel perched between her shoulders, wings slightly lifted for balance. The owner walks right beside them, one hand held close to the bird. Sound: slow paws on the floor, a happy chirp, owner laughs "taxi service". 15-20s (Ear nibbles): Living room rug, bright window daylight. The dog lies down again with the grey cockatiel still sitting on her shoulders. It leans over and nibbles gently at the soft fur on her ear. She flicks the ear once and stays relaxed, eyes half closed, while the owner's hand stays close beside her neck. Sound: tiny beak clicks, a soft chirp, owner whispers "so patient". 20-25s (Whistle from the perch): Corner of the living room, early afternoon daylight, a wooden perch stand by the window. The owner's finger lifts the grey cockatiel back onto the perch. The dog sits beside the stand looking up, and the cockatiel whistles at her twice. She tilts her head one way, then the other. Sound: two loud whistles, the dog's curious whine, owner laughs.

## AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

## CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

### Clip 1 | 0-5s | Stepping on

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Living room, late morning, bright window daylight, grey sofa and a wooden floor with a rug. A grey cockatiel with a yellow crest and orange cheek patches sits on the owner's finger. The owner lowers the hand beside the dog, who is lying on the rug, and the cockatiel steps off onto her back, gripping her long fur. Sound: a cheerful whistle, owner says "okay, all aboard".

### Clip 2 | 5-10s | Walking along her fur

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. ## HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Muse AI: one video** | Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
