Her Best Friend the Old Farm Dog

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A gentle day with the old farm Border Collie who taught her everything: a porch greeting, a slow walk on the farm track, watching the cows, drinking side by side and a shady nap.

TIMELINE

0-5s	Porch greeting
5-10s	Slow walk
10-15s	Watching the cows
15-20s	Drinking side by side
20-25s	Shady nap

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Porch greeting): Farmhouse porch, early morning, soft overcast light, worn wooden boards and muddy boots. An old black-and-white Border Collie with a grey muzzle lies on a faded blanket. The dog trots up the steps, lowers her head and gently sniffs the old collie's grey face, and the old collie thumps its tail twice on the boards. Sound: tail thumps on wood, birds, owner says "there's your buddy". 5-10s (Slow walk): Dirt farm track between green fields, cool morning, grey sky. The old black-and-white Border Collie with the grey muzzle walks slowly and a little stiffly along the track. The dog walks right beside it at the same slow pace, her shoulder almost touching it, glancing over at it every few steps. Sound: slow paws on dirt, wind in the fields, a gate creaking far away. 10-15s (Watching the cows): Wooden field gate at the end of the track, overcast morning light, cows grazing far off. The old black-and-white Border Collie with the grey muzzle sits at the gate, ears up, watching the herd. The dog sits down right next to it and stares in the same direction, both perfectly still. Sound: distant mooing, wind, owner whispers "the two supervisors". 15-20s (Drinking side by side): Farmyard by the barn, late morning, grey light, two steel water bowls on the concrete. The old black-and-white Border Collie with the grey muzzle drinks slowly from one bowl, and the dog drinks from the other right next to it. They both lift their heads at the same time, water dripping from their chins. Sound: lapping from both bowls, dripping, chickens clucking. 20-25s (Shady nap): Shade along the barn wall, warm early afternoon, patchy grass and a sunlit yard beyond. The old black-and-white Border Collie with the grey muzzle sleeps on its side. The dog lies down close behind it and rests her chin gently across its back, letting out a long sigh, both chests rising slowly. Sound: slow breathing, a long sigh, bees in the clover.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
