Her Pet Goose Friend

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A big white goose is her loud farmyard companion: a honking hello, a walk across the yard, a puddle splash, tail fur nibbles and a dip in a small pool.

TIMELINE

0-5s	Honking hello
5-10s	Walk across the yard
10-15s	Puddle splash
15-20s	Tail fur nibbles
20-25s	Pool dip

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Honking hello): Farmhouse yard, damp autumn morning, grey sky, fallen leaves on the gravel. A large white goose with an orange beak waddles across the yard honking. The dog stands calmly beside the owner's legs, and the goose walks right up and stretches its long neck toward her face. They sniff each other while the goose makes soft honks. Sound: loud honks turning soft, leaves rustling, owner laughs "here's the boss". 5-10s (Walk across the yard): Same gravel farmyard, grey autumn daylight, a red barn in the background. The dog walks slowly toward the barn and the large white goose waddles right beside her, matching her pace. When she stops to sniff a fence post, the goose stops too and honks once. Sound: paws and webbed feet on gravel, a single honk, crows in the trees. 10-15s (Puddle splash): Farmyard after rain, overcast morning, a wide muddy puddle by the gate. The large white goose steps into the puddle and splashes with its wings, flicking muddy water. The dog standing nearby gets sprayed, blinks, shakes her whole body, and stays right there watching. Sound: splashing, flapping wings, the dog's shake, owner says "oh no". 15-20s (Tail fur nibbles): Farmhouse porch steps, grey autumn light, pumpkins by the door. The dog lies on the bottom step. The large white goose stands behind her and gently nibbles at the long fur on her tail with its orange beak. She turns her head to look at it, then puts her head back down on her paws. Sound: soft beak nibbles, a low goose murmur, wind chimes. 20-25s (Pool dip): Corner of the farmyard, late morning, pale sun through the clouds, a small blue plastic pool on the grass. The large white goose floats in the pool, dipping its head and shaking water off. The dog lies on the grass right beside the pool, chin on the edge, watching it splash. Sound: splashing, happy honks, water dripping, a rooster far off.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
