Animal Friends Group Nap

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A rainy afternoon pile-up in the big dog bed: the cat curls in, the corgi squeezes in, corgi snores, the owner adds a blanket and the whole pile sleeps on.

TIMELINE

0-5s	The cat curls in
5-10s	The corgi squeezes in
10-15s	Corgi snores
15-20s	Blanket on
20-25s	The pile sleeps on

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (The cat curls in): Living room, rainy afternoon, grey daylight through the window, rain on the glass, beige sofa and a big round dog bed on the floor. The dog lies curled in the dog bed. The orange tabby cat with white paws and a white chest walks over, kneads the edge of the bed and curls up against her belly. Sound: rain on the window, soft purring, the dog's sigh. 5-10s (The corgi squeezes in): Same living room, rainy grey light, round dog bed. The small red-and-white Pembroke Welsh Corgi with a blue collar trots in, sniffs the dog's face, and squeezes into the bed against her chest, next to the orange tabby cat with white paws. The dog lifts her head, sighs and lays it back down over the corgi. Sound: claws on the floor, rustling, a big sigh, owner whispers "room for one more". 10-15s (Corgi snores): Close view of the round dog bed, rainy afternoon light from the window. The dog, the orange tabby cat with white paws and the red-and-white corgi with a blue collar are all asleep in one pile. The corgi starts to snore softly and its back paws twitch, and the dog opens one eye, looks at it, then closes it again. Sound: soft corgi snores, rain, the cat purring. 15-20s (Blanket on): Living room, grey rainy daylight, beige sofa behind. The owner's hands gently lay a soft grey knitted blanket over the dog, the orange tabby cat with the white chest and the red-and-white corgi in the dog bed. The cat stretches one white paw out from under the blanket and rests it on the dog's nose. Sound: blanket rustling, rain, owner whispers "shh, shh". 20-25s (The pile sleeps on): Living room, late afternoon, rain stopped, soft pale light, a lamp switched on in the corner. Wide view of the round dog bed under the grey blanket: the dog's head poking out on one side, the corgi's big ears on the other, the orange tabby cat's tail hanging over the edge. The dog yawns widely and settles back to sleep. Sound: dripping gutter, a big yawn, quiet house.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | The cat curls in

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Living room, rainy afternoon, grey daylight through the window, rain on the glass, beige sofa and a big round dog bed on the floor. The dog lies curled in the dog bed. The orange tabby cat with white paws and a white chest walks over, kneads the edge of the bed and curls up against her belly. Sound: rain on the window, soft purring, the dog's sigh.

Clip 2 | 5-10s | The corgi squeezes in

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Same living room, rainy grey light, round dog bed. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
