Best Friends Since Day One

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The puppy and a young kitten in their very first days together: a nose-to-nose hello, a shared nap, a playful paw, side-by-side water bowls and falling asleep on the owner's blanket.

TIMELINE

0-5s	First nose hello
5-10s	Shared puppy bed
10-15s	Playful paw
15-20s	Side-by-side drinks
20-25s	Lap blanket nap

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 9-week-old female long-coat black-and-tan German Shepherd puppy, extra fluffy fur, oversized paws and floppy fuzzy ears, wearing a small yellow collar. 0-5s (First nose hello): Living room, late morning daylight from a side window, worn grey rug on a wooden floor. The fluffy puppy lies on the rug as a young orange tabby kitten with white paws and a white chest creeps closer. They stretch their necks and touch noses for a second, the puppy's tail sweeping slowly across the rug. Sound: quiet room, tiny sniffs, owner whispers "look at that". 5-10s (Shared puppy bed): Corner of the same living room, soft overcast daylight, a round brown fleece dog bed beside a bookshelf. The puppy is curled up asleep and the small orange tabby kitten with white paws climbs in, turns once and settles against the puppy's fluffy side. The puppy sighs and does not wake up. Sound: soft breathing, a tiny kitten purr, distant traffic. 10-15s (Playful paw): Kitchen, bright natural daylight, beige tile floor with a few kibble crumbs. The young orange tabby kitten with white paws sits next to the puppy and gently taps one floppy fuzzy ear with a soft white paw. The puppy flops onto her back and wiggles her oversized paws in the air, tail thumping the tiles. Sound: little paw taps, tail thumping, owner laughing softly. 15-20s (Side-by-side drinks): Same kitchen, afternoon daylight, two separate small bowls on a rubber mat by the wall: a steel water bowl for the puppy and a little white ceramic bowl for the kitten. The puppy laps noisily while the orange tabby kitten with white paws drinks daintily beside her, water drops landing on the mat. Sound: loud puppy lapping, delicate kitten lapping, dripping water. 20-25s (Lap blanket nap): Sofa in the evening, ordinary warm table lamp light, a cream knitted blanket over the owner's legs seen from point of view. The puppy is asleep in the blanket folds and the orange tabby kitten with white paws curls up against her fluffy chest. The owner's hand gently rests on both of them. Sound: TV murmuring far away, soft purring, owner whispers "best friends already".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | First nose hello

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 9-week-old female long-coat black-and-tan German Shepherd puppy, extra fluffy fur, oversized paws and floppy fuzzy ears, wearing a small yellow collar. Living room, late morning daylight from a side window, worn grey rug on a wooden floor. The fluffy puppy lies on the rug as a young orange tabby kitten with white paws and a white chest creeps closer. They stretch their necks and touch noses for a second, the puppy's tail sweeping slowly across the rug. Sound: quiet room, tiny sniffs, owner whispers "look at that".

Clip 2 | 5-10s | Shared puppy bed

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
