The Puppy Meets the Corgi

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The puppy meets an adult corgi for the first time: sniffing through a baby gate, a careful hello on the lawn, a play bow, resting in the shade and lying side by side on the porch.

TIMELINE

0-5s	Baby gate sniff
5-10s	Lawn hello
10-15s	Play bow
15-20s	Shade break
20-25s	Porch rest together

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 9-week-old female long-coat black-and-tan German Shepherd puppy, extra fluffy fur, oversized paws and floppy fuzzy ears, wearing a small yellow collar. 0-5s (Baby gate sniff): Kitchen doorway, morning daylight, a white wooden baby gate across the opening, beige tile floor. An adult Pembroke Welsh Corgi with a red-and-white coat and a blue collar stands on one side and the fluffy puppy on the other. They sniff each other through the bars, the corgi's stubby tail wagging. Sound: sniffing, collar tags clinking, owner says "gentle, gentle". 5-10s (Lawn hello): Backyard lawn, bright overcast daylight, green grass with a few clover patches and a white plastic chair. The adult red-and-white corgi with a blue collar walks up slowly and sniffs the puppy's fluffy back. The puppy sits down on her oversized paws and wiggles, then sniffs the corgi's nose. Sound: birds, grass rustling, a tiny puppy yip. 10-15s (Play bow): Same backyard, cloudy daylight, wooden fence in the background. The adult red-and-white corgi with a blue collar drops into a low play bow, front legs stretched on the grass. The puppy hops forward clumsily with floppy ears bouncing, then both trot a few gentle steps together. Sound: soft play huff, little paws on grass, owner laughing. 15-20s (Shade break): Under a big maple tree in the backyard, dappled midday daylight on the grass. The adult red-and-white corgi with a blue collar lies down in the shade and the puppy flops right beside her, panting with a tiny pink tongue. The owner's hand sets a shallow water dish between them. Sound: leaves rustling, light panting, water dish set down on grass. 20-25s (Porch rest together): Back porch, late afternoon natural daylight, grey wooden boards and a doormat. The adult red-and-white corgi with a blue collar lies stretched out and the fluffy puppy leans her head on the corgi's side, eyelids drooping. The corgi glances back at her and stays still. Sound: distant lawn mower, soft sighs, owner whispers "new big sister".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
