First Snow With Her Best Friend

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The puppy's first snow with the kitten watching from safety: looking out the glass door, first paws in the snow, a nose touch at the doorway, a towel dry together and warming up by the heater.

TIMELINE

0-5s	Watching the snow
5-10s	First paws in snow
10-15s	Doorway nose touch
15-20s	Towel dry
20-25s	Warming up

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 9-week-old female long-coat black-and-tan German Shepherd puppy, extra fluffy fur, oversized paws and floppy fuzzy ears, wearing a small yellow collar. 0-5s (Watching the snow): Back door with a large glass pane, early morning cold white daylight, beige doormat inside. The puppy and a young orange tabby kitten with white paws sit side by side on the mat looking out at the snowy yard, both heads tilting as fat flakes drift down past the glass. Sound: quiet house, heater humming, owner says "it's snowing!". 5-10s (First paws in snow): Backyard just outside the door, overcast winter daylight, a thin fresh layer of snow on the grass and a wooden fence. The fluffy puppy steps off the porch step, lifts one oversized paw high, then pounces into the snow and sniffs it, flakes sticking to her fuzzy ears. Sound: soft crunching snow, puppy snorting, owner laughing. 10-15s (Doorway nose touch): Open back door, grey winter daylight, the porch covered and dry. The young orange tabby kitten with white paws sits on the dry inside mat with the owner's hand next to her. The puppy trots back with snow on her muzzle and they touch noses across the doorway. Sound: cold wind, a little sneeze, owner says "too cold for you, kitty". 15-20s (Towel dry): Kitchen, ordinary daylight from the window, beige tiles with a few wet paw prints. The owner's hands rub the puppy gently with a striped towel while the orange tabby kitten with white paws sits close and sniffs the damp fur on the puppy's back, then the corner of the towel. Sound: towel rubbing, puppy wriggling, kitten mewing once. 20-25s (Warming up): Living room, cloudy afternoon with a warm table lamp on, a small wall heater above a grey rug. The puppy lies on the rug with slightly damp fluffy fur and the young orange tabby kitten with white paws curls up against her chest. Outside the window snow keeps falling. Sound: heater humming, soft purring, a sleepy puppy sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Watching the snow

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 9-week-old female long-coat black-and-tan German Shepherd puppy, extra fluffy fur, oversized paws and floppy fuzzy ears, wearing a small yellow collar. Back door with a large glass pane, early morning cold white daylight, beige doormat inside. The puppy and a young orange tabby kitten with white paws sit side by side on the mat looking out at the snowy yard, both heads tilting as fat flakes drift down past the glass. Sound: quiet house, heater humming, owner says "it's snowing!".

Clip 2 | 5-10s | First paws in snow

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
