The Puppy Copies the Cat

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The puppy tries to do everything the kitten does: a big stretch, sitting by the window, licking a paw, batting a toy and squeezing into a cardboard box.

TIMELINE

0-5s	Copycat stretch
5-10s	Window sitting
10-15s	Paw licking
15-20s	Toy batting
20-25s	Box squeeze

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 9-week-old female long-coat black-and-tan German Shepherd puppy, extra fluffy fur, oversized paws and floppy fuzzy ears, wearing a small yellow collar. 0-5s (Copycat stretch): Hallway, morning daylight, wooden floor with a runner rug. A young orange tabby kitten with white paws does a long stretch with her back arched. The puppy watches, then pushes her oversized front paws forward and stretches too, bottom up in the air, wobbling a little. Sound: soft yawns, claws on the rug, owner laughing "copycat". 5-10s (Window sitting): Living room, bright daylight through a low window, a short wooden step stool under it. The orange tabby kitten with white paws sits neatly on the window ledge. The puppy puts her front paws on the stool and sits as tall as she can, looking out the same way as the kitten. Sound: birds outside, puppy's little grunt, owner whispering. 10-15s (Paw licking): Sofa cushion, midday natural light, a beige throw blanket. The young orange tabby kitten with white paws licks one white paw and wipes her face. The puppy next to her looks, then licks her own oversized paw clumsily and nibbles it, ears flopping forward. Sound: tiny licking sounds, a squeak from the sofa, owner giggling. 15-20s (Toy batting): Kitchen floor, afternoon daylight, beige tiles. A small fuzzy ball rolls between them. The orange tabby kitten with white paws bats it with a quick paw and the puppy tries the same move with her big paw, misses, and pounces with a happy wiggle as the ball rolls away. Sound: ball rolling on tiles, paws slapping, soft puppy yip. 20-25s (Box squeeze): Living room corner, evening lamp light, a medium cardboard box open on the carpet. The young orange tabby kitten with white paws is curled up inside. The puppy climbs in too, squeezes beside her and lies down with her floppy ears hanging over the edge of the box. Sound: cardboard creaking, contented purr, owner says "there's no room!".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Copycat stretch

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
