MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Corner wait): Quiet street corner, cloudy afternoon daylight, damp sidewalk, a grass verge and a mailbox post. The dog sits on leash beside the owner's legs, ears up, staring down the street, shifting her front paws a little. The owner's hand holds the leash loosely. Sound: light wind, distant car, owner says "almost time". 5-10s (Spotting her): Same corner, grey afternoon light. Down the street the back of a yellow school bus pulls away out of focus. A girl about 8 with a ponytail and a yellow raincoat walks toward them beside her father. The dog stands up, tail wagging hard, whining softly on leash. Sound: bus engine fading away, excited whine, tags jingling. 10-15s (Happy greeting): Sidewalk at the corner, overcast daylight. The ponytailed girl in the yellow raincoat kneels and hugs the dog around her fluffy neck while her father stands right beside her. The dog stays calm on the leash held by the owner, wiggling and sniffing the girl's backpack. Sound: girl laughing, happy dog grunts, father says "easy, she missed you". 15-20s (Walk home): Neighborhood sidewalk, cloudy late afternoon, wet leaves along the curb. The dog walks on leash between the owner's legs and the girl about 8 in the yellow raincoat, whose ponytail swings as she walks. Her father follows a step behind. The dog keeps glancing up at her. Sound: footsteps, rustling leaves, girl chatting about her day. 20-25s (To her gate): The neighbor's front gate, soft overcast light, a short path and a red front door. The girl with the ponytail and yellow raincoat pets the dog's head once more, then walks inside with her father. The dog sits on leash on the sidewalk, watching until the door closes. Sound: gate creaking, door closing, soft dog sigh.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
