MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Window spotting): Living room, bright morning daylight, a large front window with sheer curtains and a grey sofa beneath it. The dog stands with her front paws on the sofa back, staring out at the driveway where a car door shuts. Her ears shoot up and her fluffy tail starts wagging. Sound: car door outside, a soft excited whine, owner says "who's here?". 5-10s (Doorway wiggle): Front hallway, natural daylight from the open door, shoes on a rack. A young woman with curly hair and a green hoodie, the dog sitter, kneels in the doorway. The dog wiggles her whole body, leans into her and licks her chin while the sitter laughs and hugs her neck. Sound: happy whining, laughing, tags jingling, sitter says "I missed you!". 10-15s (Corgi hello): Same hallway, morning daylight, beige tile floor. A small Pembroke Welsh Corgi with a red-and-white coat and a blue collar trots in and the sitter in the green hoodie rubs his ears. The dog presses against the sitter's side, not wanting to be left out. Sound: paws clicking on tiles, happy snorts, sitter laughing. 15-20s (Cat check-in): Living room floor, soft daylight, a worn grey rug. The curly-haired sitter sits cross-legged on the rug and an orange tabby cat with white paws and a white chest walks over, sniffs her knee and rubs against her arm. The dog lies beside her with her chin on the sitter's foot. Sound: purring, quiet room, sitter whispers "hi, beautiful". 20-25s (Walk together): Tree-lined sidewalk, sunny morning with soft shadows, parked cars along the curb. The sitter in the green hoodie holds the dog's leash and the dog trots happily beside her, tail high, looking up at her every few steps. The camera follows a little behind. Sound: birds, footsteps, distant traffic, sitter says "just like old times".

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
