MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Spring porch): Front porch in spring, fresh morning daylight, pots of pink tulips and a wicker mat. The dog lies on the porch boards and an orange tabby cat with white paws and a white chest sits beside her, both sniffing the breeze. A bee hovers over the tulips in the background. Sound: birds singing, light breeze, wind chime. 5-10s (Summer kiddie pool): Backyard in summer, bright sunny afternoon, green grass and a blue plastic kiddie pool with shallow water. A small Pembroke Welsh Corgi with a red-and-white coat and a blue collar stands in the pool splashing with his front paws while the dog stands beside it drinking from the edge. Sound: splashing water, panting, kids playing far away. 10-15s (Autumn leaf walk): Park path in autumn, cool cloudy daylight, orange and brown leaves covering the ground. The dog and the small red-and-white corgi with a blue collar walk on leashes side by side, kicking through the leaves, the owner's hands holding both leashes from behind. Sound: crunching leaves, tags jingling, cool wind. 15-20s (Winter snow trot): Backyard in winter, flat white overcast daylight, ankle-deep snow and a snow-capped wooden fence. The dog trots through the snow with fluffy fur dusted white and the red-and-white corgi with a blue collar hops along in her paw prints, his short legs disappearing in the snow. Sound: snow crunching, happy huffs, owner laughing. 20-25s (Cozy winter night): Living room at night, warm light from a fireplace behind a black metal screen and one floor lamp, a thick cream rug. The dog lies stretched on the rug and the orange tabby cat with white paws and a white chest is curled against her belly, both slowly blinking at the fire. Sound: crackling fire, soft purring, wind outside.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
