MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Sharing the bed): Bedroom corner, soft morning daylight through blinds, a large grey dog bed on carpet. The dog lies curled in the bed and an orange tabby cat with white paws and a white chest steps in, kneads the cushion and lies down against her back. The dog lifts her head, then lies back down. Sound: quiet room, kneading paws, gentle purr. 5-10s (Sharing the sunbeam): Living room, bright late morning sunlight falling across a wooden floor in a square patch. The dog lies stretched in the sun and the orange tabby cat with white paws flops down right next to her inside the same patch of light, both squinting, fur warm and fluffy. Sound: clock ticking, distant birds, a lazy dog sigh. 10-15s (Sharing the box): Kitchen floor, afternoon daylight, beige tiles, a large open cardboard box. The orange tabby cat with white paws sits inside the box and the dog rests her chin on the box edge right next to her. The cat sniffs the dog's nose and stays put, the box sagging a little. Sound: cardboard creaking, sniffing, owner chuckling. 15-20s (Sharing the rope toy): Backyard, cloudy afternoon daylight, patchy grass and a wooden fence. The dog and a small Pembroke Welsh Corgi with a red-and-white coat and a blue collar each hold one end of a knotted rope toy and tug very gently, tails wagging, then the dog lets go so the corgi wins. Sound: playful growls, rope creaking, owner says "so generous". 20-25s (Sharing the blanket): Sofa at night, ordinary warm lamp light, a fleece plaid blanket spread across the cushions. The dog lies along the sofa under the edge of the blanket and the orange tabby cat with white paws curls up on top of the blanket over her back. The owner's hand tucks the corner in. Sound: TV murmuring, soft purring, owner whispers "goodnight, you two".

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
