MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Cat gets bed first): Living room, morning daylight, a round beige dog bed by the sofa. The dog walks up to her bed and finds an orange tabby cat with white paws and a white chest curled in the middle. She stands there, looks at the camera, then lies down on the rug beside the bed instead. Sound: quiet room, a small dog huff, owner says "rule number one". 5-10s (Nose taps allowed): Kitchen, ordinary daylight from the window, beige tiles. The dog lies on the floor and the orange tabby cat with white paws sits in front of her and taps her nose twice with a soft white paw, claws in. The dog blinks and stays calm, tail swishing slowly on the tiles. Sound: soft paw taps, tail swishing, owner laughing. 10-15s (Cat crosses first): Narrow hallway, afternoon daylight from a far window, wooden floor and a runner rug. The dog stops and waits as the orange tabby cat with white paws strolls slowly across the hallway in front of her, tail held high. Only then does the dog continue walking. Sound: claws on wood, a calm cat chirp, owner says "ladies first". 15-20s (Cat picks the window): Living room, bright cloudy daylight, a cushioned window bench. The orange tabby cat with white paws sits on the best cushion right in the window and the dog lies on the floor below the bench, chin resting on the edge, both looking out at the yard. Sound: birds outside, soft breathing, distant traffic. 20-25s (Goodnight headbutt): Bedroom at night, a small bedside lamp on, a grey dog bed on carpet. The dog lies in her bed and the orange tabby cat with white paws walks up and gently presses her head against the dog's cheek, rubbing along her fluffy neck. The dog closes her eyes. Sound: soft purring, quiet house, owner whispers "and that means goodnight".

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
