MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Hand nudge): Living room, morning daylight, the owner sitting on a beige carpet seen from point of view. The owner's hand pets a tiny grey tabby kitten with white socks in a soft basket. The dog walks up and pushes her nose under the owner's other hand, flipping it onto her head. Sound: tiny mews, dog's nose bump, owner laughs "I see you". 5-10s (Big sigh): Same living room, soft overcast daylight. The dog lies down on the carpet a little away from the basket, chin on her front paws, watching the owner's hands stroke the small grey kitten with white socks. She lets out a long sigh through her nose and blinks slowly. Sound: long dog sigh, kitten purring, clock ticking. 10-15s (Petting for both): Living room floor, midday natural light, beige carpet. The owner sits between them, one hand scratching the dog's fluffy chest and the other gently stroking the tiny grey tabby kitten with white socks in her basket. The dog's tail starts sweeping the carpet. Sound: tail thumping, soft purr, owner says "plenty of love for both". 15-20s (First sniff): Living room, afternoon daylight, the basket on the carpet with the owner's hands close by. The dog stretches her neck and carefully sniffs the small grey kitten with white socks, who sniffs back and touches the dog's nose with a tiny paw. The dog stays very still. Sound: sniffing, tiny mew, owner whispers "gentle, good girl". 20-25s (Nap nearby): Living room in the evening, ordinary lamp light, the basket set beside the dog's grey bed. The dog sleeps stretched in her bed and the grey tabby kitten with white socks sleeps in the basket right next to her nose. The owner's hand rests on the dog's side. Sound: soft breathing, quiet house, a tiny kitten snore.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
