MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Watching her leave): Front hallway, morning daylight through the open door, shoes on a mat. The dog walks out on leash with the owner's legs beside her. An orange tabby cat with white paws and a white chest sits on the stairs inside, watching her go, ears forward. Sound: door opening, keys jingling, a small cat meow. 5-10s (Empty bed sniff): Living room, quiet midday daylight, a large grey dog bed on the floor. The orange tabby cat with white paws walks slowly around the empty dog bed, sniffs the cushion, then steps in and lies down in the middle of it, looking toward the door. Sound: very quiet house, clock ticking, soft purr. 10-15s (Groomer table): Small grooming salon, bright ordinary ceiling lights, a grooming table with a grey rubber mat. The dog stands calmly while a groomer's hands brush her fluffy freshly washed coat. She keeps turning her head toward the shop door, ears up. Sound: brush strokes, a dryer humming in the next room, groomer says "almost done". 15-20s (Window waiting): Living room front window, late afternoon daylight getting softer, sheer curtains. The orange tabby cat with white paws sits on the windowsill staring out at the empty driveway, tail wrapped around her paws, ears turning at every passing car. Her fluffy friend is still not home. Sound: car passing outside, quiet room, a tiny chirp from the cat. 20-25s (Evening reunion): Front hallway in the evening, ordinary ceiling light on. The dog walks in with fluffy freshly groomed fur and the orange tabby cat with white paws trots over, touches noses and rubs along her chest. The dog lies down on the mat and the cat curls up beside her. Sound: door closing, happy dog grunts, loud purring, owner says "she missed you".

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
