Best Friends Road Trip

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

All three friends go on a road trip, safely secured: loading up, the cat carrier buckled in, a grassy rest stop, watching the hills roll by and arriving at a little cabin.

TIMELINE

0-5s	Loading up
5-10s	Cat carrier buckled
10-15s	Rest stop grass
15-20s	Rolling hills
20-25s	Cabin arrival

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Loading up): Driveway, early morning cloudy daylight, an open rear door of a grey SUV. The dog sits on the back seat wearing a black car harness clipped to a seat belt tether, and a small Pembroke Welsh Corgi with a red-and-white coat and a blue collar sits beside her in his own harness. The owner's hand checks the clips. Sound: birds, car door open chime, owner says "road trip!". 5-10s (Cat carrier buckled): Back seat of the car, soft morning daylight through the windows. A grey plastic cat carrier is buckled in with the seat belt, and an orange tabby cat with white paws and a white chest peeks through the front grate. The harnessed dog next to it sniffs the carrier door gently. Sound: seat belt click, a soft meow, engine starting. 10-15s (Rest stop grass): Grassy rest area beside the road, sunny midday light, a wooden picnic table. The owner holds two leashes as the dog and the red-and-white corgi sniff around the grass. The cat carrier sits on the picnic table right beside the owner, the orange tabby cat watching from inside. Sound: distant highway traffic, wind, sniffing, owner says "stretch your legs". 15-20s (Rolling hills): Back seat while driving, bright afternoon daylight, green rolling hills passing outside the window. The dog in her harness rests her chin on the window ledge with the window closed, and the red-and-white corgi in his harness dozes against her side. Sound: road noise, engine hum, soft dog sigh. 20-25s (Cabin arrival): Small wooden cabin porch, late afternoon daylight, pine trees around. The dog and the red-and-white corgi with a blue collar sniff the porch boards on leash while the owner's hand carries the cat carrier, the orange tabby cat peering out at the trees. Sound: pine branches in the wind, footsteps on boards, owner says "we made it".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Loading up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Driveway, early morning cloudy daylight, an open rear door of a grey SUV. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
