The Corgi's Sleepover

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The corgi stays overnight: arriving at the door, dinner in separate bowls, rope toy play on the rug, bedtime in the big dog bed and waking up together.

TIMELINE

0-5s	Sleepover arrival
5-10s	Dinner side by side
10-15s	Rope toy play
15-20s	Bedtime
20-25s	Morning wake-up

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Sleepover arrival): Front doorstep, early evening daylight, a doormat and a potted plant. A neighbor's hand passes a leash to the owner and a small Pembroke Welsh Corgi with a red-and-white coat and a blue collar trots inside. The dog meets him in the doorway with a happy wiggle and a sniff. Sound: door opening, tags jingling, neighbor says "have fun, buddy". 5-10s (Dinner side by side): Kitchen, ordinary ceiling light in the evening, beige tile floor. Two separate steel bowls sit a little apart on a rubber mat. The dog eats from the bigger bowl and the red-and-white corgi with a blue collar eats from the smaller one, both crunching kibble. Sound: kibble crunching, bowls sliding a little, owner says "no stealing". 10-15s (Rope toy play): Living room, warm lamp light at night, a worn grey rug. The dog lies on the rug holding one end of a knotted blue rope and the red-and-white corgi with a blue collar tugs the other end gently, his stubby tail wagging fast, both making soft play grumbles. Sound: playful grumbles, rope creaking, owner laughing. 15-20s (Bedtime): Bedroom at night, a small bedside lamp casting soft light, a large grey dog bed on the carpet. The dog lies curled in the bed and the red-and-white corgi with a blue collar climbs in, turns around twice and flops down against her fluffy belly. Sound: quiet room, a big corgi sigh, owner whispers "lights out". 20-25s (Morning wake-up): Same bedroom, early morning pale daylight through blinds. The dog and the red-and-white corgi with a blue collar lie in the dog bed, lift their heads at the same time and yawn, then the corgi stretches his short legs out across the dog's paws. Sound: birds outside, big yawns, owner says "good morning, sleepyheads".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
