20-25s	Rug nap

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Calm entrance): Grandma's living room, soft afternoon daylight through lace curtains, a flowered armchair and a patterned rug. A fluffy grey long-haired cat sits on the armchair. The dog walks in calmly on a loose leash beside the owner's legs and stops, looking at the cat. Sound: clock ticking, quiet room, grandma says "here she is". 5-10s (Lying down to watch): Same living room, soft natural daylight, patterned rug. The dog lies down on the rug a few feet from the armchair, chin on her paws. The fluffy grey long-haired cat watches from the chair with round eyes, tail twitching slowly. Sound: soft dog sigh, old clock ticking, grandma whispering. 10-15s (Careful sniff): Grandma's living room, afternoon daylight. The fluffy grey long-haired cat steps down from the armchair and walks slowly toward the dog. They stretch their necks and sniff noses, the dog staying perfectly still while the owner's hand rests on her leash. Sound: sniffing, a tiny cat chirp, owner whispers "good girl". 15-20s (Grandma pets both): Next to the armchair, soft lace-curtain daylight. Grandma's wrinkled hands with a pale blue cardigan sleeve reach down, one hand stroking the dog's fluffy head and the other the fluffy grey cat's back. The dog leans into her hand, tail sweeping the rug. Sound: soft purring, tail thumping, grandma says "see, friends already". 20-25s (Rug nap): Grandma's living room, late afternoon light fading, a radiator under the window. The dog sleeps on the patterned rug near the radiator and the fluffy grey long-haired cat lies a short way away facing her, eyes half closed, both breathing slowly and calmly. Sound: radiator ticking, slow breathing, a teacup clinking far away.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
