MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 11-year-old female long-coat black-and-tan German Shepherd with a grey muzzle and grey around the eyes, a little thinner fluffy coat, moving slowly and gently, wearing a faded yellow collar with a small round tag. 0-5s (Slow sunny morning): Bedroom, pale morning sunlight through half-open curtains onto the carpet. The senior dog lies on a thick dog bed in the sun, and an old orange tabby cat with white paws, a thinner coat and slower moves walks over carefully and lies down against her grey muzzle. Sound: birds outside, soft breathing, owner whispers "morning, old girls". 5-10s (Little yard stroll): Backyard, mild cloudy morning, short grass and a stone path along a wooden fence. The senior dog walks slowly along the path, and the old orange tabby cat with white paws and a thin coat ambles a few steps behind her, both stopping to sniff the same patch of grass. Sound: birds, slow paw steps, light breeze. 10-15s (Ear grooming): Living room, soft midday daylight, a worn beige rug. The senior dog lies down and the old orange tabby cat with white paws and a thinner coat sits beside her head and slowly licks the dog's fluffy ear. The dog closes her eyes and leans in. Sound: quiet licking, gentle purr, a content dog sigh. 15-20s (Soft food dinner): Kitchen, early evening daylight, beige tiles and two separate bowls on a mat a little apart. The senior dog eats soft food slowly from a raised steel bowl, and the old orange tabby cat with white paws eats from her own small dish beside her, moving slowly. Sound: soft chewing, bowls tapping, kitchen clock ticking. 20-25s (Orthopedic bed evening): Living room in the evening, ordinary warm lamp light, a thick grey orthopedic dog bed with a blanket. The senior dog lies on the bed and the old orange tabby cat with white paws and a thinner coat curls up against her chest. The owner's hand pulls the blanket over them. Sound: TV murmuring, slow breathing, owner whispers "my sweet old friends".

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
